RESOLUTION ON THE REPORTS ON INLAND EMIGRATION FOR THE YEAR ENDING THE 30TH JUNE 1905

GENERAL DEPARTMENT—EMIGRATION

Calcutta the 11th November 1905

RESOLUTION—No 2804

READ—

The Reports on Inland Emigration for the year ending the 30th June 1905 submitted by the Superintendents of Emigration, Calcutta the Santhal Parganas Hazaribagh, Ranchi, Palamau, Manbhum and Singhbhum and by the Travelling Superintendent of Emigration for Lower Bengal and the Central Provinces

Read also—

The remarks of the Commissioners of the Bhagalpur and Chota Nagpur Divisions on the reports submitted by the Superintendents of Emigration in their respective Divisions

Several amendments in the rules under Act VI of 1901 were made during the year under review with the object of modifying the depôt and transit regulations so as to render emigration to Assam less unpopular It was

represented by the Hon'ble the Chief Commissioner that the rules which provided for supplying emigrants with cooked meals acted as a distinct obstacle to recruitment, and he urged that uncooked food should be offered and facilities given to the emigrants for cooking it themselves The Lieutenant Governor consulted the officers of the recruiting districts, and from their replies it appeared that the objection was well founded Rules were accordingly introduced to give effect to the suggestions of the Assam Administration It was further brought to notice that the rules relating to the clothing, housing, and transport of emigrants which were suitable for persons recruited by contractors under Chapter III of the Act were not only unnecessary in the case of sardari emigrants but tended to make their recruitment difficult These rules were accordingly declared inapplicable in most cases to emigrants recruited under Chapter IV and sections 90 and 91 of Chapter V Anti cholera inoculation which had never been compulsory was found to have acted as a deterrent to emigration, while it had not produced any marked effect in preventing epidemics With the concurrence of the Assam Administration it was abolished during the year Rule 116 provided that emigrants on transit should be halted for eight hours at Naihati It was suggested that if this rule were modified, a through train could be run from Asansol to Goalundo, and the journey to Assam appreciably shortened The East Indian Railway accepted the proposal and the rules were modified so as to substitute a halt at Asansol for that at Naihati The opening of a railway line through Palamau rendered it easier for emigrants from that district to be taken to Daltonganj for registration Sanction was accordingly given to the separation of the districts of Ranchi and Palamau for emigration purposes

2 In the Resolution recorded on last year's reports, a reference was made to an abuse which had sprung up in the district of Manbhum of smuggling intending emigrants from that district to adjoining districts in respect of which prohibitive notifications under section 3 of the Act had not been issued, and of despatching them to Assam in accordance with the procedure allowed by section 92 The reports under review indicate that this abuse still continues The result of measures taken to repress the smuggling of emigrants to Raniganj was that the number of prosecutions for fraudulent recruitment in the Sonthal Parganas rose from 11 to 24 The Deputy Commissioner of Manbhum states that the feature of the year was the spread of illicit recruitment in the protected areas with the extension of the free depôt system in the contiguous districts While the Travelling Superintendent of Emigration expresses the opinion that the practice is not so extensive now as formerly, there can be no doubt that persons are taken from notified districts to depôts situated in places outsides these areas for despatch as free emigrants, and that in some cases they are passed through as being natives of tributary states Various suggestions for stopping this practice were under consideration during the year The most drastic remedy suggested was that prohibitive notifications under section 3 should be issued in respect of the districts adjoining Chota Nagpur, but as it was thought that this would act as an undue restraint upon recruitment, the proposal was not sanctioned On the advice of the Superintendent of Emigration, Calcutta, a rule was framed prescribing that a register should be kept of all persons recruited under section 92, giving details from which they could be traced and laying down that no emigrants should be despatched from places of accommodation until the register had been inspected by an officer of the Government The Lieutenant Governor trusts that this will help to check the abuse

3 The unsatisfactory condition of the Inland Labour Transport Fund rendered the reduction of establishments imperative It was proposed by this Government that the post of Travelling Superintendent of Emigration should be abolished, but the Government of India directed that it should be maintained during the months in which emigration was active The period of the appointment was, at the instance of the Chief Commissioner of the Central Provinces, eventually extended to nine months The absence of cholera outbreaks at Chandpur, Naihati and Asansol rendered it possible to abolish altogether the cholera hospital at Chandpur and to reduce the establishments at

Naihati and Asansol The cholera hospital at Madhupui being no longer required was also abolished

4 Twenty four thousand three hundred and eighty four emigrants were despatched to the labour districts as against 22,322 in the previous year Of these 3,150, or 13 per cent, were recruited by licensed recruiters under Chapter III of the Act, 8,108, or 33 2 per cent, by garden sardars working under Chapter IV, 731, or 3 per cent, by specially employed sardars working under sections 90 and 91, and 12,395, or 50 8 per cent, under the provisions of section 92 The increase in the total number of emigrants does not call for notice, but there is a remarkable variation in the numbers recruited under the different methods authorized by the law The figures of recruitment under Chapter III are less than half of what they were in the preceding year, while the number of persons recruited under section 92 is almost double The decrease under the former head is attributed partly to a smaller demand for labour from licensed contractors, but it must obviously have been due principally to competition with free labour agents working under section 92 Recruitment under Chapter III in the Sonthal Parganas and Chota Nagpur is very limited, and in the latter division the contractors did little or nothing except in Manbhum, and even there the number of their recruiters is yearly becoming smaller The chief centres of recruitment under section 92 are Raniganj, Midnapore, Kharagpur and Cuttack Recruitment by garden-sardars was somewhat more active than in the previous year, especially in the Sonthal Parganas and in the Chota Nagpur Division, where 5,344 emigrants were recruited as against 4,330 The increased activity in recruitment was most noticeable in Hazaribagh where it is attributed to bad harvests

PRELIMINARY FORECAST OF THE WINTER RICE CROP OF BENGAL 1905

THE following forecast is published for general information

R W CARLYLE,

Offg Chief Secy to the Govt of Bengal

The 6th November 1905

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL

PRELIMINARY FORECAST OF THE WINTER RICE CROP OF BENGAL, 1905

Character of the season—In April and May there was good rain all over the Province But June was a very dry month, the fall being, excepting in North Bengal, very scanty indeed The monsoon set in early in July over Bengal Proper In Bihar it was delayed till about the middle of July Orissa had very little rainfall in June, and in July deficient rainfall In August Balasore suffered very much from drought During the latter half of July and all through August to the middle of September rain was continuous and heavy in Bihar and in parts of East and North Bengal The crop in the districts of Saran, Muzaffarpur, Darbhanga, Purnea, the Santhal Parganas, Rajshahi, Rangpur, Bogra Pabna, Mymensingh, Dacca, Backergunge and Tippera suffered more or less owing to excessive rainfall and consequent floods In many places the newly transplanted plants were washed away and fields had to be transplanted again Damage from floods is also reported from Howrah and the 24 Parganas On the other hand, in Orissa and in parts of Chota Nagpur the crop suffered from want of sufficient rainfall The season on the whole was not very favourable for the growth of the crop

Area sown—Since the issue of the final forecast, 1904, the Collectors of Hooghly, Howrah, Jessore, Dacca, Mymensingh, Backergunge and Bhagalpur have revised the normal areas in their districts The total *normal* area under winter rice now stands at 30,889,300 acres against 30,782,600 acres reported last year The *actual* area under the crop this year is 29 908,000 acres against 30,217,000 acres of last year, which was since revised to 30,127,600 acres

Character of the crop—Out of forty six districts (Howrah and Hooghly being now dealt with separately), the Santhal Parganas and Darjeeling expect an outturn above 100 per cent, viz, 102 and 103 respectively The eight districts viz, Birbhum, Bankura, Jalpaiguri, Dacca, Patna, Gaya,

Bhagalpur and Hazaribagh expect a normal crop On the other hand, Nadia anticipates a low outturn of 66 per cent only Howrah, Bogra, Noakhali Muzaffarpur, Monghyr, Cuttack, Angul, Puri, Ranchi and Palamau expect between 70 to 78 per cent Fifteen districts expect a crop of 80 to 89 per cent, and the remaining nine between 90 to 99

Outturn —According to the estimates of District Officers, the outturn for the whole Province works out to 88 per cent Considering the unseasonable character of the rainfall, I would not raise it to a higher figure

Offg Director of the Dept of Land Records and Agriculture, Bengal

CALCUTTA,

The 12th October 1905

[On an average of 15 years ending 1903-1904 the area under the crop which this table represents is some 81·9 per cent of the total area under rice in British India.

PRELIMINARY FORECAST OF THE INDIGO CROP OF BENGAL, 1905

THE following note is published for general information

R W CARLYLE,

Offg Chief Secy to the Govt of Bengal

The 6th November 1905

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL

PRELIMINARY FORECAST OF THE INDIGO CROP OF BENGAL, 1905

Introductory —The most important indigo growing districts in the Province are Champaran, Darbhanga, Muzaffarpur and Saran in the Patna Division and Purnea, Monghyr and Bhagalpur in the Bhagalpur Division

Character of the season —Owing to an unusually protracted cold weather, the sowings, which usually begin in February in Behar were later than usual But the rainfall was generally favourable in April and May June, however, was an exceptionally dry month, the monsoon being practically delayed in Bihar till about the middle of July The plants suffered severely in consequence of the drought and *mahai* was also delayed Then followed, during the latter half of July and all through August to the middle of September, heavy and continuous rain, causing floods and the loss of a considerable quantity of plant The season on the whole was therefore unfavourable

Area sown —Owing to the state of the market the area under indigo is contracting so rapidly that the normal area under this crop has well nigh ceased to have any meaning The area sown this year is reported to be 170,900 acres against 223,100 acres of last year (1904 and 249,700 acres of the preceding year (1903) During the year under report the decrease in area has been most marked in Champaran, Muzaffarpur, Darbhanga and also in Purnea Among the minor districts there was no sowing at all in Rangpur and Midnapur and practically none in Cuttack

Outturn —Among the important districts Muzaffarpur only estimates an outturn of 25 per cent , Champaran 27 , Saran 30, while Darbhanga shows 66 per cent , Purnea 63 , Bhagalpur 69 and Monghyr 71

The estimated outturn for Lower Bengal, including the minor Bihar districts, amounts to 64 per cent , and that for North Behar, including Monghyr, only 39 per cent The average of the Provinces, according to the district officer's return, is 44 per cent against 56 per cent of last year

The total yield of North Behar (including Monghyr) may, according to the district returns, amount to 13,132 Factory maunds and that of Lower Bengal, including the

minor Behar districts, to 6,586 Factory maunds, the total being 19,918 Factory maunds or say 20,000 Factory maunds (A Factory maund is about 75lbs) The estimated outturn last year, according to official returns, was 33,040 Factory maunds According to trade returns given by Messrs Moran & Co, last year's total actual outturn was 36,500 Factory maunds

Messrs Moran & Co 's estimate of the crop for the present year is 3,000 Factory maunds from Lower Bengal and 16,000 Factory maunds from *first cuttings* in Behar (*i e* Saran, Tirhoot, Champaran and Monghyr) The prospects for *khoontues* are reported to be very unfavourable

N D BEATSON BELL,

Offg Director of Land Records and Agriculture, Bengal

CALCUTTA,

The 30th September 1905

On an average of five years ending 1903-04 the area under indigo in the territory to which this forecast relates has represented some 38·1 per cent of the total area under indigo in British India.

Since the year 1901 an Industrial Exhibition has been held in connection with the annual session of the Congress Such Exhibitions were held at Calcutta 1901 Ahmedabad 1902, Madras 1903 and Bombay 1904, an agricultural side having been added to it at the last named place It is proposed to hold the 5th Industrial and Agricultural Exhibition at Benares about the time the Congress meets here in December 1905

2 Though the Exhibition is held under the auspices of the Congress its accounts are kept separate and any surplus from the Exhibition funds is not devoted to the purposes of the Congress

3 The Exhibition is intended to give an idea of the present condition of Indian industries and agriculture and the possibilities of their future development

4 It is true that commercial enterprise is not the sole requisite for national greatness yet no one will deny that material progress is essential to the prosperity and well being of the community and the conviction is growing year by year that the manufacturer no less than the scholar, the mechanic no less than the teacher and the clerk has an honourable place in the State It is being more and more realised that agriculture and other industrial pursuits offer a wide and useful field for brain as well as muscle, for minds of every calibre and for the application of the most advanced scientific knowledge

5 The Exhibition will aim at bringing together specimens of the natural products of India and modern appliances by which Indian industries may be improved

6 The Committee will be prepared to receive exhibits which will include and illustrate among others —

1 The natural products of India
2 Indigenous industries
3 Industries introduced or modified by foreign influence
4 Appliances relating to Indian agriculture and manufactures whether such appliances are made in India or imported
5 Medical and sanitary apparatus and appliances
6 Indian Art
7 Educational apparatus and appliances

7 It is hoped that the holding of such Exhibitions may encourage some of our country men to follow in the steps of those who have devoted capital and skill and energy to the fostering of old and the initiation of new industries

8 The Committee attaches special importance to the popularising of a knowledge of improved agricultural implements, appliances and methods for it is believed that by the adoption of these India can produce far larger and better crops than are at present obtained

9 Seeing that the scope of the Exhibition is national, the Committee confidently asks for generous assistance both in the form of subscriptions to cover the heavy expenses of such an Exhibition and in the hearty co operation of all (especially by sending Exhibits) for there is no class of the community whose interests are not likely to be promoted by the Exhibition

On behalf of the Exhibition Committee,

DURGA PRASAD
KALIDAS MITRA,
GHASIN BHAWANIPURI

Amendments in Appendix B to Part II of the General Rules for open lines of railway in British India, which were promulgated with the Government of India Public Works Department Circular No 6 Railway dated the 12th March 1895, as revised by the Government of India, Public Works Department Circulars Nos 2 Railway and IV Railway dated respectively, the 16th January and 4th March 1902

IN rule 1, Class 6, *Ammunition Class, after* the words "Division 1 comprises exclusively safety cartridges, safety fuzes for blasting' *omit* the words "Fuzes for shells, and tubes friction for guns provided there be no more than five fuzes or 25 tubes in one package and that the package be a hermetically sealed metal cylinder"

For rule 2 *substitute* the following, namely

"2 The following general rules shall be observed with respect to the packing of explosives for conveyance

(1) Unless the context otherwise requires,—

the expression "outer package' means a box, barrel case or cylinder, of wood, metal or other solid material of such strength, construction and character that it will not be broken or accidently opened, nor become defective or insecure whilst being conveyed, and will not allow any explosive to escape,

the expression 'inner package means a substantial case bag canister or other receptacle, made and closed so as to prevent any explosive from escaping

the expression 'authorized explosive' means exclusively an explosive included in a List of Authorized Explosives prepared by the Chief Inspector of Explosives with the Government of India, and published annually in the *Gazette of India*, and in force for the time being

the expression propellant means an authorized explosive of class 3 adapted and intended exclusively for use as a propelling charge in cannon or small arms, and

the expression "special authority' means a written authority granted by the Chief Inspector of Explosives, to which may be attached such conditions as may, in the opinion of the Chief Inspector of Explosives be necessary to meet the special requirements of the case

(2) The interior of every package shall be free from grit and otherwise clean

(3) Save as hereinafter provided there shall not be any iron or steel in the construction of any package unless the same is covered with suitable material so as effectually to prevent the exposure of such iron or steel

(4) Every package when actually used for the packing of one explosive shall not be used for the packing of any other explosive or any other article or substance

Provided that this rule shall not prevent the packing of inner packages containing a propellant in an outer package with inner packages containing gunpowder or another propellant

Provided also that this rule shall not prevent the packing of any article which is not of an inflammable or explosive nature, or liable to cause fire or explosion, in the same package as an explosive of the 1st Division of the 6th Ammunition Class

(5) Subject to the foregoing provisions the following shall be the method of packing authorized explosives of the various classes respectively and the maximum amounts which may be in any one package —

Bills of the Bengal Council

GOVERNMENT OF BENGAL

LEGISLATIVE DEPARTMENT

THE following Bills were introduced in the Council of the Lieutenant Governor of Bengal on the 18th November, 1905 and are hereby published for information together with the statements of Objects and Reasons —

THE CHOTA NAGPUR TENANCY (AMENDMENT) BILL, 1905

A BILL

further to amend the Chota Nagpur Landlord and Tenant Procedure Act

WHEREAS it is expedient further to amend the Chota Nagpur Landlord and Tenant Procedure Act in the manner hereinafter appearing It is hereby enacted as follows — Bengal Act I of 1879

Short title

1 This Act may be called the Chota Nagpur Tenancy (Amendment) Act 1905

Amendment of Bengal Act I of 1879, section 164

2 The words "and of all particulars recorded in such entries shall be inserted after the words the nature and incidents of such tenancies" in section 164 of the Chota Nagpur Landlord and Tenant Procedure Act, as amended by section 47 of the Chota Nagpur Tenancy (Amendment) Act 1903 and shall be deemed to have been so inserted from the date on which the latter Act came into force Bengal Act I of 1879. Bengal Act V of 1903.

STATEMENT OF OBJECTS AND REASONS

THE object of this Bill is to make a purely formal and verbal amendment in section 164 of the Chota Nagpur Landlord and Tenant Procedure Act (Bengal Act I of 1879), which was introduced by the Chota Nagpur Tenancy (Amendment) Act, 1903 (Bengal Act V of 1903) The intention of section 164 was to make all entries in records of rights relating to Mundari Khunt Kattidari tenancies conclusive evidence but it has been represented to the Government that the words used in the section are not wide enough to give full effect to that intention, and it is considered desirable to legislate so as to remove all doubt on the subject

The 10th November, 1905

THE BENGAL LAND REGISTRATION (AMENDMENT) BILL, 1905

A

BILL

To amend the Land Registration Act, 1876

WHEREAS it is expedient to amend the Land Registration Act 1876, it is hereby enacted as follows — Ben Act VII of 1876

Short title and commencement

1 (*1*) This Act may be called the Bengal Land Registration (Amendment) Act, 1905, and

(*2*) It shall come into force on such date as the Local Government may, by notification in the Calcutta Gazette, appoint in this behalf

Amendment of Bengal Act VII of 1876, section 3 clauses (*6*) and (*7*)

2 (*1*) To sub clause (*c*) of clause (*2*) of section 3 of the Land Registration Act, 1876 the following words shall be added, namely — Ben Act VII of 1876

'or on any other register prescribed for the purpose by rule made under this Act"

(*2*) To clause (*6*) of the same section the words "or as a trustee or executor shall be added

(*3*) In clause (*7*) of the same section after the word 'mauza the following shall be inserted, namely —

'means the area defined, surveyed and recorded as a distinct and separate village in—

(*a*) the general land revenue survey which has been made of the Province of Bengal or

(*b*) any survey made by the Government which may be notified in the Calcutta Gazette as defining mauzas for the purposes of this clause in any specified area

and where a survey has not been made by or under the authority of the Government'

Amendment of section 13

3 (*1*) In section 13 of the said Act after the word "such," where it first occurs, the following words shall be inserted namely —

or that in consequence of the preparation of a record of rights or for any other reason the circumstances of any district or part of a district are so altered

(*2*) In the same section, after the words "to prepare" the words or re-write or maintain shall be inserted

Amendment of section 15

4 In section 15 of the said Act, for the words "and a separate alphabetical arrangement for each local division' the following words shall be substituted, namely —

'for each local division and shall be so arranged as the Board may direct

New sections 19A and 19I

5 After section 19 of the said Act the following shall be inserted, namely —

Power of Board to direct record of matters required to be entered in Register A or Part I of Register D

'19A Notwithstanding anything contained in other sections of this Act, the Board may from time to time by written order, direct, in respect of all or any districts,—

(*a*) that all matters required by this Act to be entered in Register A and Part I of Register D, respectively, shall be entered in a combined register to be prescribed by the Board, instead of in Registers A and D, or

(*b*) that all matters required by this Act to be entered in Register A shall be entered in Part I of Register D instead of in Register A, or

(*c*) that all matters required by this Act to be entered in Part I of Register D shall be entered in Register A instead of in Register D

Explanation.—An order issued under this section may merely direct the entry of matters in some register other than that prescribed for the purpose by other sections of the Act. It may not direct the non record of matters which are required by the Act to be recorded.

Act to be read subject to orders so issued

'19B. All provisions of this Act (other than section 19A) as to the maintenance of registers as to the entry of matters in any particular register or in any particular part of any register, and as to other matters relating to registers shall be read subject to any orders issued by the Board under section 19A and for the time being in force."

Amendment of section 24

6. In section 24 of the said Act, for the words "the alphabetical arrangement mentioned in section fifteen" the words 'the arrangement directed under section fifteen' shall be substituted.

Addition to section 30

7. To section 30 of the said Act the following shall be added, namely :—

(*e*) Whenever any minor or beneficiary whose name has been recorded in any register along with that of a guardian or manager lawfully assumes direct charge of his estate, he shall forthwith give notice to the Collector and apply for correction of the register by removal therefrom of the name of such guardian or manager'.

Amendment of section 31

8. In section 31 of the said Act after the words 'any information required by the Collector' the following words shall be inserted, namely :—

'or under clause (*e*) of the said section to give notice of his having assumed direct charge of an estate'.

Amendment of section 53

9. In section 53 of the said Act,

(*a*) after the word "witnesses' the words "and any applicant or his agent' shall be inserted; and

(*b*) for the words 'in the case of a Civil Court' the words 'in respect of witnesses' shall be substituted.

New section 53A

10. After section 53 of the said Act the following shall be inserted, namely :—

Record of evidence in inquiries

'53A. The Collector shall record in writing with his own hand in English the substance of the evidence of every person examined by him in any inquiry held under this Act.'

Amendment of section 64

11. Before the proviso in section 64 of the said Act the following shall be inserted, namely :—

"(*3*) in the case of a fee simple waste land lot which is revenue-free and for which no rents are received or receivable, two and a half *per centum* on one fifteenth part of the value such value being taken to be—

(*a*) in the case of a transfer by sale the purchase money, and

(*b*) in any other case, the value determined by the Collector.

Addition to section 70

12. To section 70 of the said Act the following shall be added, namely :—

"Notwithstanding anything hereinbefore contained, no application under this section or under section 10 or section 11 of the Bengal Land-revenue Sales Act, 1859, shall be received unless it is accompanied by a fee of two rupees'. [*cf.* Bom. Act III of 1862, s. 3] XI of 1859

New sect 4A

13 After section 74 of the said Act the following shall be inserted, namely —

Power of Collector to close separate account otherwise than upon application

"74A Notwithstanding anything contained in the foregoing sections, if the Collector becomes aware, otherwise than after receipt of an application under section 72 that any separate account opened under section 10 or section 11 of the Bengal Land revenue Sales Act, 1859 or under section 70 or section 72 of this Act in respect of any estate does not represent existing facts he may, after service of a notice on the recorded proprietor and after hearing any objection which may be preferred close the account

XI of 1859

Amendment of section 77

14 In section 77 of the said Act before the word 'concerned' in the second place in which it occurs, the words "who is" shall be inserted

Repeals

15 (1) The following portions of the said Act are repealed throughout Bengal, namely —

(a) the second paragraph of section 5

(b) in section 23, the words "and a note referring to such entry shall be made in the place in the general register in which such estate or property would have appeared according to the alphabetical arrangement mentioned in section five and

(c) section 25

(2) When any order has been issued under any clause of section 19A of the said Act (as amended by this Act) in respect of any district the following portions of the said Act shall be deemed to be repealed in that district namely —

clause (e) of section 7 and clause (e) of section 8

(ii) clause 1 of the Schedule

STATEMENT OF OBJECTS AND REASONS

THE procedure prescribed in the Land Registration Act, 1876, for the maintenance of registers has been found in practice to be too minute and detailed and this regulation of detail stands in the way of the introduction of such improvements as experience has shown to be useful and advisable It is therefore proposed to amend the Act so as to give a greater latitude in regard to the form in which some of these registers may be kept, by empowering the Board of Revenue to introduce such changes as may from time to time prove desirable It is not proposed to make any alteration in regard to the information or particulars which are required by the Act to be recorded, the sole object of the present proposals being to

take power to make the record of these details in a manner different from that at present prescribed in the Act

2 The opportunity is taken to make some further amendments in the Act which experience has shown to be desirable

3 The proposed changes in the law are explained in detail in the accompanying notes

NOTES ON CLAUSES

Clause 2—Sub-clause (*1*)—The amendment is consequential upon the proposed amendment of section 13

Sub clause (*2*)—The provisions of the Act which relate to 'Managers' should extend to executors or trustees

Sub clause (*3*)—The existing definition of the term 'mauza' contained in section 3 of the Act is imperfect when used in reference to areas in which a survey has been made by or under the authority of the Government The proposed addition gives a more comprehensive definition for such areas

Clause 3—Section 13 of the Act applies only to the first preparation of the register of revenue free properties It is desirable to extend the scope of the section so as to meet the case of new circumstances arising such as a settlement and record of rights being made, in which case it may be convenient to prepare a special register in a new form so as to take advantage of such proceedings

Clause 4—Similarly it is proposed to take power to adopt in the Mauzawar Register any arrangement other than the alphabetical arrangement of mauzas In the districts newly surveyed, a geographical arrangement following the order of the numbers given to the mauzas in an index map has been adopted, and this should be legalised

Clause 5—This clause introduces a new section (19A) to empower the Board to issue orders as to the record of matters required by the Act to be entered in Register A or in Part I of Register D The section will enable the Board to prescribe a new combined register or to amalgamate Register A with Part I of Register D or to amalgamate Part I of Register D with Register A An *Explanation* is added in order to make it perfectly clear that the new section may not be used so as to leave unrecorded matters which the Act directs to be recorded

The object of the new section 19B is to facilitate the construction of references in the Act to any register which may be abolished by orders issued under section 19A

Clause 6—This clause makes a formal amendment which is consequential upon the amendment made by clause 4

Clause 7—In order that the registers may be correctly kept up to date it is necessary that a minor or beneficiary, on assuming direct charge should register himself separately

Clause 8—The amendment is consequential upon the addition to section 30 in clause 7

Clause 9—This amendment will specifically empower the Collector to enforce the attendance of applicants or their agents when conducting any inquiry under the Act

Clause 10—It is desirable that the inquiring officer should himself make a summary record of the evidence given before him

Clause 11—This amendment adds a clause to section 64 of the Act to provide for the levy of a fee on the registration of a transfer of a fee simple waste land lot which is held free of revenue and for which no rent is receivable Clause (*2*) of the section which deals with revenue free lands, does not cover the case, because it is limited to lands on account of which rents are receivable

Clause 12—The payment of fees is provided for by section 3 of the Bengal Land-Revenue Sales (Amendment) Act, 1862 (Bengal Act III of 1862) in the case of applications under section 10 or section 11 of the Bengal Land revenue Sales Act 1859 (XI of 1859), for the opening of separate accounts for the payment of land revenue No fees are however, prescribed by the existing law in the case of similar applications made under section 70 of the Land Registration Act, 1876 The keeping of such accounts causes much trouble, and there is no valid reason why a fee should not be levied in the latter case as in the former It is proposed, therefore, by clause 12 of the Bill to enact a provision prescribing a uniform fee of two rupees in all cases

Clause 13—This clause introduces a section to empower the Collector to close a separate account of his own motion whether opened under section 10 or section 11 of the Bengal Land Revenue Sales Act, 1859, or under section 70 or section 72 of the Land Registration Act 1876

Clause 14—This clause amends section 77 so as to make it clear that notices of mutations need give particulars in respect only of proprietors and managers who are concerned in the change, and not of the whole body of proprietors and managers of the estate

Clause 15—Sub clause (*1*) repeals certain portions of the Act which prescribe that entries in certain registers shall be made in consecutive, alphabetical or chronological order

Sub clauses (*2*) and (*3*) repeal, in districts for which orders are issued under the new section 19A, certain portions of the Act which would be inconsistent with such orders

Sub clause (4) repeals the provisions contained in section 3 of the Bengal Land revenue Sales (Amendment) Act 1863 (Bengal Act III of 1862), and clause 1 of the schedule thereto relating to the payment of fees in case of applications under section 10 or section 11 of the Bengal Land revenue Sales Act, 1859 (XI of 1859), for the opening of separate accounts

THE BENGAL COURT OF WARDS (AMENDMENT) BILL, 1905

A

BILL

To amend the Court of Wards Act, 1879

WHEREAS it is expedient to amend the Court of Wards Act 1879 Ben Act IX of 1879

And whereas the previous sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act 1892 to the provisions of this Act which affect Acts passed by the Governor General of India in Council 55 & 56 Vict., c 14

It is hereby enacted as follows —

Short title

1 This Act may be called the Bengal Court of Wards (Amendment) Act, 1905

Partial repeal of section 9 of Bengal Act IX of 1879

2 The following portions of section 9 of the Court of Wards Act 1879 [as amended by the Court of Wards Act (Bengal) Amendment Act, 1892] are hereby repealed namely — Ben Act IX of 1879 IV of 1892

(1) the word 'or' at the end of clause (e)

(2) clause (f), and

(3) the proviso

Insertion of new sections 10A to 10E

3 After section 10 of the said Court of Wards Act, 1879 the following shall be inserted, namely — Ben Act IX of 1879

Notice to claimants.

10A (1) Whenever the Court of Wards assumes charge of any person or property under section 7 or section 10, it shall publish in the local official Gazette and in such other manner as it may from time to time deem fit, a notice in English and also in the vernacular calling upon all persons having claims against the ward or his immoveable property to submit the same in writing to the Court within six months from the date of the publication of the notice aforesaid [Cf Act XXIV of 1899 s. 12]

(2) Every such claim (other than a claim on the part of the Government) not submitted to the Court in compliance with the provisions of sub section (1), shall, save in the case provided for by section 10E sub section (1), clause (c), be deemed for all purposes and on all occasions whether during the continuance of the management or afterwards, to have been duly discharged

Provided that if the Court is satisfied that the claimant was unable to comply with the provisions of sub section (1) it may receive his claim at any time after the date of the expiry of the period aforesaid, but any claim so received shall notwithstanding any law contract, decree or award to the contrary cease to carry interest from the date of the expiry of the period aforesaid

Claimants to furnish full particulars and documents

'**10B** (1) Every claimant submitting his claim in compliance with the provisions of section 10A sub section (1), shall furnish along with his written statement of claim full particulars thereof and shall at the same time produce all documents (including entries in books of account) on which he relies to support his claim together with a true copy of every such document [Cf Act XXIV of 1899 s 13]

(2) The Court shall after marking, for the purpose of identification every original document so produced and verifying the correctness of the copy, retain the copy and return the original to the claimant

(3) If any document, which is in the possession or under the control of the claimant is not produced by him as required by sub section (1), the document shall not be admissible in evidence against the ward, whether during the continuance of the management or afterwards, in any suit brought by the claimant or by any person claiming under him

"10C If, a Civil Court has directed any process of execution to issue against any immoveable property of a ward or the rents thereof or any crops standing thereon, the Court of Wards may at any time within one year after it assumed charge of such property apply to the Civil Court to stay proceedings in the matter of such process, and the Civil Court may, on such terms regarding interest or compensation for delay as may appear to it to be just and reasonable, stay such proceedings accordingly [Cf Act XXIV of 1899 s 14.]

Stay of proceedings of Civil Courts

"10D (1) On receipt of all claims submitted in compliance with the provisions of sections 10A and 10B the Court shall proceed to investigate such claims and shall decide which of them are to be wholly or partly admitted or wholly or partly rejected as the case may be, and shall communicate its decision in writing to each claimant concerned [Cf Act XXIV of 1899 s 15.]

Adjudication of claims

(2) When the Court has admitted any claim under sub section (1) it may make to the claimant a proposal in writing for the reduction of the claim or of the rate of interest to be paid in future or of both, and, if such proposal, or any modification of it, is accepted by the claimant and his acceptance is finally recorded and attested by the Court it shall be conclusively binding upon the claimant

Provided that if when the superintendence of the property by the Court is relinquished or otherwise terminates, any portion of the claim reduced as aforesaid is still unsatisfied, the claimant shall be entitled to recover a sum bearing the same proportion to the original claim admitted under sub section (1) as the unsatisfied portion bears to the reduced claim

(3) Subject to the provisions of sub section (2), nothing in this section shall be construed to bar the institution of a suit in a Civil Court for the recovery of a claim against a ward or his property which has been submitted to and received by the Court of Wards

Provided that no decision of the Court of Wards under this section shall be proved in any such suit as against the defendant

'10E (1) The Court of Wards may, after making an investigation under section 10D, when it appears to the Court that the estate is involved beyond all hope of extrication or for any other sufficient reason, by order published in the Calcutta Gazette declare that it will on a date to be fixed by the order relinquish charge of the property and person (or of the property as the case may be) of the ward [Cf Act XXIV of 1899 s 16.]

Relinquishment of inextricably involved estates.

(2) On the date so fixed—

(a) such charge shall terminate

(b) the owner of the said property shall be restored to the possession thereof, subject to any contracts entered into by the Court of Wards for the preservation or benefit of such property and

(c) the claims referred to in section 10A, sub section (2), shall revive

(3) In calculating the periods of limitation applicable to suits to recover and enforce debts and liabilities revived under this section the time during which such charge has continued shall be excluded

Insertion of new section 13A in Bengal Act IX of 1879

4 After section 13 of the said Act the following shall be inserted namely —

'13A If, when any disqualified proprietor dies, or ceases to be disqualified within the meaning of this Act, there remain undischarged any debts or liabilities which were incurred by or are due from, such proprietor, or which are a charge upon his property or any part thereof, [Cf Act IV of 1892, s 5 Act XXIV of 1899 s 34 proviso (1) U P Act III of 1899 s. 41 second proviso and s. 42 (1) Mad Act I of 1903, s 57 Punjab Act II of 1903 s. 45]

Power of Court to retain property of disqualified proprietor until debts paid

then notwithstanding anything contained in the foregoing sections, the Court may either withdraw from the charge of such property or retain such charge until all such debts and liabilities, together with all interest due thereon, have been discharged

Provided that, after the death of a proprietor the Court shall not retain charge on account of any debt or liability which has been declared by a competent Civil Court not to be binding on his representative"

Partial repeal of section 56

5 The words from "or to a proprietor' to the end of section 56 of the same Act [as amended by the Court of Wards Act (Bengal) Amendment Act, 1892] are hereby repealed

Insertion of new section 59A.

6 After section 59 of the said Court of Wards Act, 1879, the following shall be inserted, namely — Ben Act IX of 1879

"59A Every person employed by the Court under this Act shall, for the purposes of the Indian Penal Code, be deemed to be a public servant" [Cf Ben Act II of 1901 s 7] XLV of 1860

Persons employed by Court to be public servants

Insertion of new section 60B

7 After section 60A of the said Act [as amended by the Court of Wards Act (Bengal) Amendment Act, 1892], the following shall be inserted, namely — IV of 1892.

"60B For the purposes of Part VII and sections 60 and 60A,—

(a) a person whose property is under the charge of the Court of Wards by virtue of the second clause of section 11 shall be deemed to be a "ward," but only so far as regards such property and

Certain persons to be deemed to be wards

(b) a co owner whose estate or tenure is managed by the Court of Wards in pursuance of a direction given under section 95 of the Bengal Tenancy Act 1885, shall be deemed to be a "ward but only so far as regards such estate or tenure' VIII of 1885

Repeal of section 62

8 Section 62 of the said Court of Wards Act, 1879, is hereby repealed Ben Act IX of 1879

STATEMENT OF OBJECTS AND REASONS

1 THE object of this Bill is to make various amendments in the Court of Wards Act, 1879 (Ben Act IX of 1879), for the following purposes namely —

(1) to facilitate the investment of Trust Funds in loans to Wards Estates
(2) to provide for the prompt ascertainment of the liabilities of wards' properties and speedy adjudication of claims against them
(3) to remove all doubt as to whether employés of the Court of Wards are public servants and
(4) to declare that persons whose property is managed by the Court under the second clause of section 11 of the Court of Wards Act 1879 (Ben Act IX of 1879), and co-owners whose estate or tenure is managed by the Court under section 95 of the Bengal Tenancy Act 1885 (VIII of 1885), are "wards" for the purposes of Part VII, and sections 60 and 60A of the Court of Wards Act, 1879 (Ben Act IX of 1879), so far as regards such property estate or tenure

2 The proposed changes in the law are explained in the accompanying notes

NOTES ON CLAUSES

Clause 2—The partial repeal of section 9 is consequential upon the insertion of the proposed new section 13A

Clause 3—At present the Court of Wards runs considerable danger when it borrows d the understanding that it will retain charge of the estate until repayment of the loan bts the value of the estate It is proposed that creditors shall be required to registe they within a period of six months from the assumption of charge of a ward s property regis shall furnish particulars and documents in support of their claims, that debts section tered shall, save when the Court relinquishes charge as provided in the prop he period 10E, become extinguished, and that, when claims have been received m are to be specified, the Court of Wards shall investigate them and decide whi

admitted wholly or partly or are to be wholly or partly rejected It is proposed also that all proceedings in the Civil Courts shall, if necessary, be stayed during the first year of management It will be open to the Court of Wards, when admitting a claim, to make a proposal in writing for its reduction, an acceptance of such a proposal will be binding on the claimant if he refuses it, he will be able to sue for the claim in a Civil Court if it was registered within the prescribed period The Court of Wards will thus know the total liabilities of the estate before borrowing, and, where the estate is inextricably involved, will be able to relinquish charge By these provisions Trustees will be afforded greater security

Clause 4—The proposed new section 13A has been inserted in connection with the proposal for the investment of surplus money from Trust Funds by way of loans granted to Wards Estates It will give power to the Court of Wards to retain charge of estates under its management even after the death of the proprietors concerned till all the debts and liabilities of those estates are cleared in full Under section 9 of the Act the Court of Wards exercises such power only in regard to the estates of persons disqualified from managing their own estates under the provisions of clause (*c*) of section 6 of the Act It is now proposed to extend this power so as to cover proprietors of the other classes mentioned in section 6 The provision will apply to all debts and liabilities

Clause 5—The partial repeal of section 56 is consequential upon the proposed enactment of the new section 60B

Clause 6—will solve the question as to whether employés of the Court of Wards are public servants

Clause 7—The proposed new section is intended to prevent proprietors whose property is under charge of the Court under the second clause of section 11 of the Court of Wards Act, or co owners whose estates or tenures are managed by the Court under section 95 of the Bengal Tenancy Act 1885 (VIII of 1885) from alienating or creating any charge over such property, estate or tenure, and declares them to be "wards' for the purposes of Part VII of the Act so far as regards such property estate or tenure

Clause 8—The repeal of section 62 is consequential upon the proposed enactment of the new section 60B

QUESTIONS AND ANSWERS

THE CIRCULAR ABOUT STUDENTS

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said —

Referring to the recent circular about the students, I would ask for the following informations, viz —

(*a*) Were there any cases in the mufassal, prior to the issuing of the circular, where students had been charged with any breach of the peace either in connection with the *Swadeshi* movement or the anti partition agitation? If so, will the Government be pleased to lay on the table a statement of such cases with their results?

(*b*) Did Government consult any educationists, such as Sir Guru Doss Banerjea, Dr P C Roy, the Rev Mr Wann, the Very Rev Father Lafont, etc, before issuing the circular? If so, did they approve or disapprove of any such repressive measure?

(*c*) Will the Government be pleased to state whether working for the *Swadeshi* movement by any class of people can simply by reason of their number constitute an unlawful assembly within the meaning of section 17 of Act V of 1861? And if the acts of persons so working are unaccompanied by any use or show of force, violence or disturbance, could such acts furnish any lawful basis for appointment of special Police officers under the said section?

(*d*) Will the Government be pleased to state whether it considers the singing by any class of people of any song to be an offence unless such song is either obscene, libellous or seditious?

(*e*) Will the Government be pleased to explain how the teachers can be legitimately held responsible for anything done by the students outside their schools and beyond the school hours? And will the Government be pleased to consider whether the employment of teachers and professors as special Police officers is not likely to lower the prestige, dignity and efficiency of the educational service and thereby materially affect the education of the country?

(*f*) Will the Government be pleased to state why the circular has not been made applicable to Calcutta, where the student community are more actively working for the *Swadeshi* movement than probably anywhere else?

(*g*) Has the attention of Government been drawn to the state of things at Rangpur? If so, will the Government be pleased to state what was the precise offence committed by the students there and under what law or authority has the Magistrate there fined nearly 200 boys with Rupees five (Rs 5) each? To what department is such fine, if realised, to be credited?

(*h*) Having regard to the actual views of Government as recently explained by His Honour the Lieutenant Governor, and in view of the fact that the circular has actually been misconstrued and misapplied in some cases, will the Government be pleased, in the interests of public peace and tranquillity, to withdraw the circular altogether, leaving such matters entirely in the hands of the Educational Department without any intervention either by the police or by the Magistrates?

The Hon'ble MR CARLYLE replied —

"(*a*) There were a few cases reported to Government in which students have actually been guilty of a breach of the peace in connection either with the *Swadeshi* movement or the anti partition agitation Government, before

issuing the circular, had also received information that in many parts of the mufassal a state of things existed under which students by picketing and other devices had coerced a large number of people into abstaining from buying what they pleased and tradesmen from importing or selling what they pleased Government is not prepared to lay on the table the confidential reports it has received on the subject

(*b*) Government issued the circular in consultation with its advisers in the Educational Department

(*c*) Government is not prepared to express an opinion regarding cases vaguely and hypothetically put But it is obvious that the assembly of any class of people in large numbers to put pressure on any section of the community may easily lead to a state of things which would end, unless properly controlled, in a serious breach of the peace

(*d*) Songs, though neither obscene, libellous, nor seditious, may be sung in such a way or under such circumstances as to give reasonable offence and endanger the public peace

(*e*) Government cannot accept the view that teachers are not responsible to exercise an influence ever their pupils for good outside their school In the opinion of Government, the employment of teachers and professors as special police officers is not likely to lower the prestige, dignity, and efficiency of the Educational Service It is a service which may be exacted from all members of the community, from the highest to the lowest

(*f*) Government is in a position in Calcutta to take immediate steps to suppress nuisances The circular has been communicated to the Commissioner of Police, who has been instructed, if necessary, to take steps in accordance with the spirit of the instructions contained in that circular

(*g*) The Hon'ble Member is well aware that Rangpur does not belong to this Province

(*h*) The Lieutenant Governor is not prepared to withdraw the circular There is now no excuse for any misunderstanding of the circular It is for the District Magistrate to see that the liberty and peace of the community are not interfered with by any section thereof, and the circular simply advises him to secure the assistance of the educational authorities in dealing with students and school boys"

GOVERNMENT OFFICERS AND THE SWADESHI MOVEMENT AND ANTI PARTITION AGITATION

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked —

Does the Government approve of any of its servants inciting people either against the *Swadeshi* movement or against the agitation against the partition of Bengal? If not, will the Government inquire whether there are not officers who are actually doing so, or in case the Government is not willing to make such an inquiry, will it be pleased to issue a circular forbidding all public servants from working against either of these movements and enjoining them to an attitude of perfect neutrality?

The Hon'ble MR CARLYLE replied —

"Government has no reason to believe that any of its officers are taking any improper action against the *Swadeshi* movement, or against the agitation in connection with the partition of Bengal, and there is no occasion for an inquiry or for the issue of a circular"

BUDGET FOR THE WESTERN PROVINCE OF BENGAL

The Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA of Murshidabad said —

Owing to the recent partition of Bengal and the creation of the new Province of Eastern Bengal and Assam, is it not necessary to prepare a new Budget for the Western Province of Bengal for the year 1905 1906?

If so, will the Government be pleased to state when such a Budget would be prepared and laid before the Council?

The Hon'ble MR SHIRRES replied —

"The Provincial Budget is merely a consolidation of the district budgets, and the districts which have been transferred to the new Province have taken their budget allotments with them It will not be necessary to prepare a new budget for 1905 1906"

RAMPUR BOALIA WATER WORKS AND RANGPUR DRAINAGE WORKS

The Hon'ble MR CHAUDHURI asked —

Will the Government be pleased to state how much out of the provisions made for the water works of Rampur Boalia and the drainage works of Rangpur in the budget for 1905 1906 has been appropriated to the works referred to?

Is it not the case that the Sanitary Engineer submitted his report on the said water works and the drainage works in June last, and if no money has been allotted yet for the works referred to above, will the Government state its reasons for the non appropriation of the budget grants for the purposes referred to?

The Hon'ble MR SHIRRES replied —

"The places referred to are now included in the Province of Eastern Bengal and Assam, and all papers referring to them have been transferred to the Government of that Province'

THE BOARD OF REVENUE

The Hon'ble MR CHAUDHURI asked —

It is stated in the Lieutenant Governor's letter of the 6th April, 1904, regarding the partition of Bengal that the Lieutenant Governor was then maturing a scheme, in consultation with the Board of Revenue, for associating its members more closely with himself in the administration of the Province If any such scheme has been matured will the Government be pleased to publish it for public information?

The Hon'ble MR CARLYLE replied —

"The Lieutenant Governor has matured a scheme in consultation with the Board of Revenue for associating the Members of the Board more closely with himself in the administration of the Province

He does not propose to publish any information as to the details of the scheme which introduces no changes of principle into the administration of the Province"

THE DIRECTOR OF PUBLIC INSTRUCTION

The Hon'ble MR CHAUDHURI asked —

Is the Government in a position to state whether a member of the Indian Civil Service is to succeed Mr Alexander Pedler on the latter's retirement from the office of the Director of Public Instruction in Bengal?

Is the office of the Director of Public Instruction to be abolished and an Educational Secretary appointed in his place to discharge his duties?

Is the Government aware that a scheme for the conversion of the Educational Department into an executive department of the Bengal Government was contemplated by Sir George Campbell and then abandoned, having been called into question in Parliament? Having regard to this fact, does the Government intend to revive a similar scheme?

The Hon'ble MR GORDON replied —

"The answer to the first question is that the Hon'ble Member is referred to the answer given by the Secretary of State for India to Mr Hugh Law's question on the 3rd August, in which it was stated that he was aware that the Government of Bengal did propose to appoint a member of the Indian Civil Service to succeed Mr Pedler temporarily as Director of Public Instruction in March next An officer of the Education Department has been already selected for appointment as Inspector of Schools, so that at the end of two years he may be fully acquainted with the details of the administration of the Department and qualified for the Directorship

The answer to the other questions is that Government does not intend to abolish the office of the Director of Public Instruction and appoint an Educational Secretary in his place, or to convert the Educational Department into an Executive Department of the Bengal Government"

CIRCULAR PROVIDING FOR THE PUNISHMENT OF SCHOOL BOYS TAKING PART IN POLITICS

The Hon'ble MR CHAUDHURI asked —

(*a*) Is it a fact that the circular issued by the Chief Secretary to the Government of Bengal, providing for the punishment of school boys for taking part in politics or in the *Swadeshi* movement and for the enrolment of teachers as special constables is a safeguard against school boy disturbances, was forwarded to all the District Magistrates in Northern and Eastern Bengal about three days before the said districts of Bengal were proposed to be severed from the Bengal Administration?

Was the same circular forwarded by the same officer at about the same time to the District Magistrates of the remaining portion of Bengal?

(*b*) If there be any districts in Bengal where the circular has not been forwarded, will the Government be pleased to name them?

(*c*) Which are the districts where the Government anticipated or was informed that different sections of the people were likely to come into conflict, and did the Government ascertain how far the information, if any, was based upon facts?

(*d*) Since the issue of the circular to mufassal Magistrates, is it not a fact that the Director of Public Instruction and the Commissioner of the Presidency Division in Bengal were deputed to consult some leading educationalists in Calcutta as to the policy of the circular and that they unanimously condemned it?

The HON'BLE MR CARLYLE replied —

"The circular referred to in the question was issued to all districts of Northern and Eastern Bengal shortly before the partition with the consent of the Government of Assam It was issued about the same time to a few District Magistrates in other parts of Bengal The Government is not prepared to give any information as to the districts in Bengal to which the circular has not been forwarded, nor as regards the information it obtained before the issue of the circular It is not correct that the Director of Public Instruction and the Commissioner of the Presidency Division in Bengal were deputed to consult some leading educationists as to the policy of the circular, and that they condemned it"

THE CHOTA NAGPUR TENANCY (AMENDMENT) BILL, 1905

The Hon'ble MR SLACKP moved for leave to introduce a Bill further to amend the Chota Nagpur Landlord and Tenant Procedure Act He said —

"I would ask, Sir, for leave to introduce this Bill which is one to amend the wording of section 164 of Bengal Act 1 of 1879, known as the Chota Nagpur Landlord and Tenant Procedure Act The section in question was introduced into the Act by Bengal Act V of 1903 It was taken from section 25 of Bengal Act II of 1869, the Chota Nagpur Tenures Act, locally

known as the Bhuinhari Act, the intention being to thereby leave all questions relating to these peculiar Mundari khuntkatti tenancies to the jurisdiction of the Settlement Officer and the Commissioner, and that the record so prepared should be final and conclusive as regards existing facts This section provides that the entries relating to Mundari khunt kattidari tenancies made in a record of rights when finally published under section 103A, sub section (2) of the Bengal Tenancy Act, 1885, or amended under section 162 of the Chota Nagpur Landlord and Tenant Procedure Act, shall be conclusive evidence of the nature and incidents of such tenancies One of the entries to be made in the record of rights is the name of the person who is the Mundari khunt kattidar in respect of the tenancy

"In the course of the proceedings now being carried out in the district of Ranchi for the preparation of a record of rights the question was raised by the Settlement Officer as to whether the wording of section 164 of the Act was such as to warrant all the entries made in the record of rights in regard to a certain Mundari khunt kattidari tenancy being taken as conclusive of the facts to which they related The Settlement Officer raised the question because he had to decide and record in regard to tenancies of this class who was the holder in each case, *i e*, the real Mundari khunt kattidar I would point out to the Council, as I did before when dealing with the Bill which eventually became Bengal Act V of 1903, that the privileges and incidents connected with a Mundari khunt kattidari tenancy are not inherent in the land itself, as in the case of land known as sir or zirat, but depend on who is the person in possession A person who claims the right to hold certain land as a Mundari khunt kattidari must prove for one thing, that he is the lineal male descendant of the Mundari who originally got the land as a Mundari khunt katti tenancy If he fails to do this he cannot be recorded as holding the land under such a tenancy and the land could no longer be regarded as an existing Mundari khunt kattidari tenancy The matter was referred to the legal advisers of Government, who considered that the question as to who is the actual or rightful tenant was not covered by the wording of the section, which is therefore defective, and fails to embody the intentions of the Government, and consequently requires to be amended in the manner proposed by the Bill I am now asking for leave to introduce

"As proof of my assertion that the section in question fails to embody the intention of the framers of it, I would first refer to what the Select Committee said in their Report on the Bill which eventually became Bengal Act V of 1903 In that Report the Select Committee said in paragraph (36) with regard to this section 'We have also considered it essential to provide that the entries in the record of rights shall be final and conclusive, so that confidence may thereby be restored to the minds of these people'

"Subsequently, in a communication to the Government of India with reference to the sanction of the Governor General in Council to the passing of Bengal Act V of 1903, it was stated as follows —'The Lieutenant Governor feels convinced that it would be a grave mistake to withhold in the case of the proceedings in respect of khunt katti tenures the finality which was accorded in the case of those relating to bhuinhari lands' I would therefore now, Sir, ask that this Bill may be introduced into this Council"

The Motion was put and agreed to

The Hon'ble MR SLACKE introduced the Bill and moved that it be read in Council

The Motion was put and agreed to, and Secretary accordingly read the title of the Bill

The Hon'ble MR SLACKE also applied to the President to suspend the Rules of Business to admit of the Bill being taken into consideration and passed at the present meeting

He said —"I would now, Sir, ask you to suspend the Rules Relating to Business in this Council so that the Bill may be taken into consideration at this meeting and passed

"I will endeavour to give the reasons which compel me to make this request

"For generations the Mundaris in Ranchi—the race is aboriginal—have been in a state of unrest owing to their inability to protect what they believe to be their rights in the land On different occasions they have rebelled believing that they would be able to get by force what they considered to be their right To remedy this state of affairs the Bhuinhari Act of 1869 and the Chota Nagpur Landlord and Tenant Procedure Act of 1879 were passed, but subsequent events, culminating very recently in another uprising of this clan, showed that further measures were required to put an end to the legitimate grievances of these Mundaris Government accordingly determined to have a record-of rights prepared for this district, and the inquiries thereby originated showed that these aborigines had no confidence or trust in the Courts, owing chiefly to their mental inferiority as compared with the Aryans opposed to them These people were therefore made to understand that Government would as far as possible deal with their claims by special inquiry on the spot, so that there should be no doubt in the future in regard to those that were recognized Accordingly Bengal Act V of 1903 was passed, and a part of that Act deals with the subject of Mundari khunt katti tenancies The Settlement Officer began operations in the most disturbed portion of the Ranchi district, and his labours have been extremely beneficial, for the Mundaris of the large tract known as the Mankipatti have become quiet believing that now their rights as entered in the record of rights are final and conclusive and admit of no contradiction This, as I have already said, is a belief which it was the intention of Government these aborigines should hold, but unfortunately it is not a belief that is warranted by the existing wording of section 164

"No decision has yet been given by a Civil Court on the point, but the opinions of the legal advisers of Government show that in all probability such decision would be to the effect that the belief engendered by Government in the minds of these aborigines was a false one

"I have known these people for many years and for the last four years have been in close touch with the record of rights proceedings now going on If any such decision were given by a Civil Court, the result to the peace of the district would be in the very highest degree disastrous What is being done has had the effect of restoring to some extent confidence in the minds of these arborigines who unfortunately have been made most suspicious by past events A decision that the entries in the record of rights were not final and conclusive in regard to these peculiar tenancies would be viewed by these arborigines as another breach of faith on the part of Government and would retard for years the hope of restoring confidence in their minds

"To me, knowingwhat I do of this people and their past history, it seems absolutely essential that this amendment should be passed as quickly as possible in order that the disturbances of the past may not be renewed and that the work of pacification now being carried out may not be rendered nugatory With these remarks I would ask that this Bill may now be considered by the Council"

The Hon'ble THE PRESIDENT said —"I consider that the reasons given by the Hon'ble Mr Slacke are adequate, and I therefore suspend the rules with the view that the Bill be now taken into consideration"

The Hon'ble MR SLACKE moved that the Bill be taken into consideration

He said —"I have no further remarks to make, except this, that the matter is of a non contentious description, and it merely provides that the wording of the section shall be in the terms of the intention which was held by Government when section 164 of Bengal Act V of 1903 was passed"

The Motion was put and agreed to

The Hon'ble MR SLACKE then moved that the Bill be passed

The Motion was put and agreed to

THE BENGAL LAND REGISTRATION (AMENDMENT) BILL, 1905

The Hon'ble MR HARE moved for leave to introduce a Bill to amend the Land Registration Act, 1876 He said —

"I feel that possibly some apology will be necessary for troubling the Council with this Bill to amend the Bengal Land Registration Act, 1876

"The main object of the Bill is, as stated in the Statement of Objects and Reasons, to give greater latitude to the Board in the matter of the registers to be maintained to carry into effect the intentions of the Land Registration Act The Act as it stands prescribes with far too great detail and rigidity the manner in which registrations are to be made

"It is often alleged that the legislation of the Indian Councils leaves too much latitude to Government in the matter of making rules But this is a very clear instance of the extreme unwisdom in attempting to prescribe in too great detail how the intentions of an Act are to be accomplished

"The Land Registration Act was framed for the purpose of obtaining a record of the interests of the proprietors of estates in Bengal and of maintaining this record corrected up to date This was a huge undertaking when we remember that there are nearly 191,000 estates to which this Act applies and over 1,617,000 interests are recorded, taking the figures of last year, when also over 77,000 mutations were recorded It was extremely unlikely that the best possible method for carrying out this difficult task would be hit upon in the first instance, or that no improvements of system could be suggested as the result of experiences

"The method which was adopted was to start a register called Register A of the interests as they were when the Act was passed To register the corrections, a second register called D was opened in which the orders for making changes as they occurred were posted in order of date, cross references being made to the original entries in Register A This worked very well at first, but as change followed upon change it became exceedingly difficult to ascertain the interests extant at the moment of inquiry On each occasion the Register A had to be referred to and the corrections had to be followed down in all their ramifications Where change had followed on change this work was most laborious, and it had to be repeated at every occasion of reference and great delay resulted References to ascertain the interests in an estate are continually being made and in many case an answer to the inquiry is urgently required No doubt when matters got very bad the original Register A was written up afresh and a fresh start made only to become involved and complicated again in course of no long time

"A reform was then introduced under which Register D was kept estate by estate in tauzi number order The interests at the time of writing it up in the new form were posted under the estate number, and as each correction was ordered it took the form of 'in lieu of entry so and so, enter entries so and so' The entry to be altered was then neatly scored through by a red line and the new entries posted up with cross references between them and the old entries and a reference to the order directing the change Blank pages were left under each estate for this purpose This gave at any moment an easily readable statement of the interests as corrected up to date Being in tauzi number order any estate could be easily found

"It is obviously easy to put into this new register all the informations previously contained in Register A and thus to do away altogether with a bulky and superfluous register Nor is this the only advantage Register A is under the Act arranged alphabetically, and a serial number is given in this register to each estate in the order in which it is written up But new estates are continually being formed and named and these have to come in at the end of the register until such time as it is re written when they are put into their alphabetical position and the whole series re numbered Thus the Register A number is frequently changed, and as this number is quoted in all references to the estate, continual mistakes arise from misquoting these varying numbers, and all the numerous and bulky registers in the tauzi accounts and in the Road Cess Department and other registers have to be continually corrected in regard to this A number

"This procedure is prescribed by Act and so could not be at once changed when it was found to be unnecessary and an enormous amount of labour has been involved and the record rooms have been cumbered with a great bulk of registers which could have been avoided It is to obviate this labour and the complication entailed by the present system that this Bill is proposed which will also give the Board power to take up any new and suitable devices which may be found expedient to carry out in the simplest and most economical manner the intentions of the Act We do not propose to prescribe the forms we now advise, but to leave ourselves power to adopt any more expeditious and simple plan if such can be discovered Some of the other registers such as Register C of mauzas will be simplified and made more convenient and brought into conformity with the registers of the record of rights

"The power contained in section 13 of the Land Registration Act in regard to lakhiraj estates was also found to be too curtailed In Orissa we would have liked to be able to adopt the registers prepared by the Settlement Department, but we were advised that this was not possible without a modification of the Act, and so now power is taken to enable us on a future occasion to adopt such registers This is done by section 3 of the Act

"These are the two principal objects of the Bill, but there are one or two more points which may be referred to But I do not propose to ask you to follow me through all the sections of the Bill, since this is done in the Statement of Objects and Reasons, and many of the clauses are of a purely technical nature

"The amendment of the definition of 'mauza' in the Act may be noticed It follows actual custom and practice, and the object is to make more precise and definite the description of the position of the lands of an estate By referring them to a survey record where there has been a revenue survey it is possible to have the boundaries relaid at any time and no doubt can arise as to the site intended

"In clause 7 it is required that a minor who comes of age and a beneficiary when they take direct charge shall have themselves registered This is usually done, but the Act at present does not specifically require it

"In clause 9 power is taken to compel attendance of applicants or their agents, which is often necessary in order to complete an inquiry and is just as necessary as the power to compel the attendance of witnesses It may be argued that a party may be a witness and as such can therefore be compelled to attend, but it is perhaps better to be explicit on the point

"Clauses 11 and 12 fix fees for registrations in cases not hitherto provided for

"Clause 13 gives a Collector power to close a separate account in all cases in which it is found that it no longer represents the present condition of affairs

"Clause 14 merely makes it clear that the present interpretation of the Act in section 77 is correct It has been argued that the Act requires in the case of every change the publication not only of the changes effected, but also of all the other items recorded in regard to the estate These often run to hundreds of items, and their publication would be very laborious and would serve no useful purpose With these remarks I would ask leave to introduce this Bill to amend the Land Registration Act, 1876."

The Motion was put and agreed to

The Hon'ble MR HARE introduced the Bill and moved that it be read in Council

The Motion was put and agreed to, and Secretary accordingly read the title of the Bill

THE CALCUTTA POLICE (SUPERANNUATION FUND) BILL, 1905

The Hon'ble MR CARLYLE moved for leave to introduce a Bill to abolish the Calcutta Police Superannuation Fund

He said —"This is in no sense a contentious matter, and I do not think I need make any remarks except to say that we want to introduce exactly the same system as prevails in the District Police in which no deductions are at present made on account of pensions or gratuities We want to extend that system to Calcutta"

The Motion was put and agreed to

The Hon'ble Mr Carlyle introduced the Bill and moved that it be read in Council

The Motion was put and agreed to, and Secretary accordingly read the title of the Bill

THE BENGAL COURT OF WARDS (AMENDMENT) BILL, 1905

The Hon'ble MR HARE moved for leave to introduce a Bill to amend the Court of Wards Act, 1879 He said —

"Your Honour—In introducing the Bill it is necessary to say only a few words as to the objects and reasons for the amendments which it is proposed to make in the Bengal Court of Wards Act, 1879 The proposal to amend the existing Act arose out of a wish to utilize the funds of certain charitable trusts in loans to the Court of Wards In consequence of the reduction of the rate of interest on Government securities in which the funds of most of the charitable trusts have been invested, the incomes of these trusts have in many cases been seriously reduced, and it has become a matter of importance that, if possible, a safe investment which would yield a larger return on their capital should be open to them The Court of Wards on the other hand are constantly in need of money which they can rarely borrow at less than 6 *per cent*, and it is desirable that they should be able to borrow from the Trust Funds when these have money to lend

"This at present can only be safely done in cases in which the estate for which the money is borrowed is one of which the proprietor has been declared disqualified under section 6 (*e*) of the Act In that case under section 9 (*f*) the estate may be retained under the Court's management so long as the loan has not been repaid In other cases the death of the heir or some other change of circumstances may take the estate out of the control of the Court and the party who advanced the loan would be only in the position of an ordinary creditor who had advanced money on a mortgage on the estate Such a loan might be in fact safe and be ultimately recoverable, but the trustees could in default of payment of interest and capital only recover by a suit They would have to expend much money and engage on a difficult business for which they were quite unsuited, and the trust might be seriously crippled

"And this difficulty not only affects trusts, but also is a great detriment to private capitalists and banks who are in a position to lend money to the Court. It very seriously detracts from the borrowing power of the Court and increases the interest which it has to pay It thus becomes much more difficult for the Court to rescue from ruin estates which are badly involved, in all cases in which it cannot give an assurance that the estate will be retained until the loans raised to repay the debts and liabilities due by it are discharged

"There are thus very strong reasons for the amendment of the Act to enable the Court of Wards to retain the management of the estate until the monies borrowed by it have been repaid In the Court of Wards Act of the Central Provinces (XXIV of 1899) section 34, proviso 1, the United Provinces Act III of 1899), sections 41 (2) and 42 (1) the Madras Act (I of 1902), section 57 and the Punjab Act (II of 1903), section 45, provisions are made to secure this object, and a Bill to amend the Bombay Court of Wards Act in section 40 (1) contains a similar provision

"The Bengal Act clearly should also secure the same power to the Court of Wards in Bengal This is proposed to be secured by clauses 2 and 4 of the Bill

"There is next to be noticed another difficulty which the Court of Wards have to meet Before the Court can give any such guarantee as I have just mentioned, it is necessary that they should feel very certain of their grounds

for believing that they can redeem the loans they may thus raise For this it is necessary that the circumstances of the estate should be accurately known It often happens that in the case of very involved estates the proprietors do not call in the Court's aid until the very last moment when it is certain that no other measure can possibly save them It is then in the time available exceedingly difficult to secure that the liabilities of the estate have been accurately stated, and on the other hand the assets are often grossly exaggerated Perhaps a decree has been passed, and unless money can be raised without delay the estate will be sold But to make a full examination into all the circumstances of an estate some time is necessary and statutory powers are necessary to compel disclosure of all claims against the estate To ascertain the real as distinguished from the book assets some time and some experience as to the real collections which can be made in the mufassal from the raiyats is absolutely necessary It is not that debts are wilfully concealed or assets wilfully and knowingly exaggerated But it often happens that the unsecured debts more especially are not accurately known to the proprietor, and an incurable optimism often leads the proprietor to really believe that his position is much better than it really is, and if after the Court has raised a loan it is found that claims which it has not provided for have to be met, or that the assets are less than it had reason to anticipate, the position of the Court is very seriously compromised This is not, I am sorry to say, an imaginary danger, and the present difficulty of accurately ascertaining the circumstances of an estate and of framing a satisfactory scheme for its redemption without great danger of its being found to be unworkable is very real, and the uncertainty which the Court experience in this respect is a constant source of grave anxiety

"It has happened that the management of the Court has been completely paralysed by the attachment by a Civil Court of an entire balance to the credit of an estate in the Government Treasury

"To meet the e difficulties section 3 of the Bill has been framed on the basis of sections 12—16 of the Central Provinces Act (XXIV of 1899) In a series of additions to the present Act, viz, 10A to 10F, it is provided that a notice shall issue to claimants to submit their claims (clause 10A) and to furnish proof of them (clause 10B) The Civil Courts are empowered to stay the execution of their decrees during what may be termed the period of inquiry of one year on such conditions as may appear to them to be fair and equitable (clause 10C)

"The claims will then be examined and adjudicated on [clause 10D(*1*)] subject to the right of a creditor to sue [clause 10D(*3*)]

"Clause 10D (*2*) provides that any compromise duly accepted by a creditor in regard to his debt shall be binding on him It might perhaps be thought that such compromises would not ordinarily be effected, but it frequently is the case that a creditor will gladly accept much less than his lawful claim when he recognises that if left to recover without the help of the Court there is little chance of his recovering anything at all If the Court do not interfere, the payment of the secured debts by sales in the Civil Courts will often swallow up the whole of the assets, leaving nothing for the unsecured debtors In other cases the trouble and the certain expense to the creditors of suing for their claims may make them ready to forego a portion of their claims when they recognise that only on this condition is it possible for the Court of Wards to take up the management It is necessary that such arrangements with the creditors shall be binding, and I have in fact had to deal with creditors who have attempted to repudiate their engagements on the strength of which alone the Court had taken up the estate and borrowed money to pay the debts.

"Finally, in clause 10E provision is made for surrendering the estate, if it is found that it is impossible to redeem it

"Both in the interests of proprietors whose estates will be more easily redeemed and of creditors who will be the better able to recover their claims, these amendments will be beneficial The position of the Court of Wards will be greatly strengthened, and it will be able to deal with difficult cases with much greater confidence and assurance

"The remaining clauses of the Bill call for only a few words The object of clause 5 of the Bill is to make it unnecessary to sue in the name and under the signature of a disqualified proprietor If a proprietor is disqualified he clearly ought not to be allowed, much less required, to take any part in the conduct of suits in connection with his estate In practice difficulty is often experienced in getting him to take the necessary action The same difficulty has occurred in the case of proprietors of estates or tenures managed by the Court of Wards in pursuance of an order of the District Judge under section 95 of the Bengal Tenancy Act and clause 5 covers their case also

"Clause 6 decides a point which is at present doubtful, and declares all employés of the Court of Wards to be public servants within the meaning of the Indian Penal Code

"Clause 7 is framed to prevent co proprietors who consent to their share of their estates being managed by the Court along with the shares of disqualified proprietors, and co owners whose estates or tenures are managed by the Court of Wards under section 95 of the Bengal Tenancy Act from alienating or creating any charge upon such property during such management With these remarks I beg leave to introduce the Bill"

The Motion was put and agreed to

The Hon'ble MR CHAUDHURI said —"With your Honour's leave I would venture to remark that it would be very convenient to all Members concerned if Bills of this nature were circulated amongst Members at least a week before their introduction"

The Hon'ble THE PRESIDENT said —Undoubtedly the object of all the officers of the Council is to meet the convenience of Hon'ble Members, but nothing can be insisted on beyond what the Rules of Business require

The Hon'ble MR HARE introduced the Bill and moved that it be read in Council

The Motion was put and agreed to, and Secretary accordingly read the title of the Bill

The Council was then adjourned to Saturday, the 2nd December, 1905

This Notice affects the following Admiralty Chart —Port Kulion on sheet No 944 Also China Sea Directory vol II, 1899, page 294

EASTERN ARCHIPELAGO—Java—Sunda Strait

Arnemuiden bank—Beacon established

No 441 (first publication) —The British Admiralty has given notice (No 1048 of 1905) that an iron screw pile beacon, surmounted by a black cone has been erected on the western side of Arnemuiden bank, in the northern approach to Sunda strait

Approximate position lat 5° 12¾ S, long 106° 44½ E

This notice affects the following Admiralty Charts —Eastern Archipelago, western portion, No 941a Gaspar and Banka straits, No 2149 Sunda strait and approaches No 2056 Also Eastern Archipelago, Part II, 1904, page 62

CHINA SEA—Borneo—North West Coast

South Natuna islands—Reefs near

No 442 (first publication) —The British Admiralty has given notice (No 1049 of 1905) of the existence of the undermentioned reefs near the South Natuna islands, China sea —

(*a*) A reef 4 cables long, in a N W and S E direction with a least depth of 8 feet over it and from 12 to 16 fathoms around, is situated to the westward of Sumpadi island in a position from which the north extreme of that island bears N 64 E, distant one mile and the south extreme of the island S 64° E

Approximate position lat 2 35¾ N, long 109° 9′ E

(*b*) A reef 9 cables long in a W N W and E S E direction and 3 cables wide with a least depth of 8 feet over it, is situated to the southward of Subi island, in a position from which Latu rock in line with Kordu (Kerdas) islet bears S 54° E distant 2¾ miles

Approximate position, lat 2 46½ N long 108° 47 E

(*c*) The reef charted to the eastward of the northern end of Subi island has a least depth of 3¼ fathoms over it with 18 to 20 fathoms around, and is situated in a position from which Ria rock bears N 76° W, distant $7\frac{8}{10}$ miles, and Tumbalo rock S 30° W

Approximate position, lat 3° 1¼′ N, long 109° 0¾′ E

(*Variation 2 Easterly in 1905*)

This Notice affects the following Admiralty Chart —South Natuna islands, No 2104 Also China Sea Directory, vol II, 1899, pages 82 and 83

CHINA, EAST COAST—WUSUNG RIVER

Shanghai—Intended alteration in system of weather signals

No 443 (first publication)—The British Admiralty has given notice (No 1059 of 1905) that, on the 1st January 1906, the flags of the International Code will be substituted for the Marryat Code in making the undermentioned weather signals at the Storm signal station, Shanghai —

I—The 9 30 A M signal, indicating the direction and force of the wind at Gutzlaff at 9 A M, will be made as follows —

The direction by the flags N, S, E, W and V (variable) of the International Code and the force by the numeral signals 0 to 11

Letter U flag signifies calm, and a blue pennant that fog prevails

This signal is lowered at 10 A M In case of any delay it will be hoisted from 11 30 to 1 30 A M

At 3 30 P M a similar signal shows the direction and force of the wind at Gutzlaff at 3 P M In case of delay it will be hoisted from 4 15 to 4 30 P M

II—The signals indicating the probable direction and force of the wind on the coast, and at Shanghai within the next 24 hours will be made as follows —

SPECIAL FLAGS

1 2 3 4 5

Flag No 1 hoisted over any of the flags N S, W E, U, or V of the International Code indicates the probable wind along the coast south of the 30th parallel

Flag No 2 hoisted over any of the flags N, S W E, U or V indicates the probable wind along the coast north of the 30th parallel

Flag No 3 indicates that fair weather is probable at Shanghai

Flag No 4 indicates that unsettled and threatening weather is probable at Shanghai

Flag No 5 indicates that rainy weather is probable at Shanghai.

III—The 4 P M signal indicating height of the standard barometer at Za ka wei Observatory, will be made in the same manner as at present except that numeral signals of the International Code will be used in the place of those of Marryat's Code

NOTE—Signals I and III are repeated at the storm warning semaphore of the Imperial Maritime Customs near the Inner bar and from the Outer bar signal flagstaff near the Wusung lighth

Approximate position Shanghai storm signal station lat 31 14¼ N, long 121° 28½ E

This Notice affects China Sea Directory, vol III, 1904, pages 422 423 and 424

The Reports from the Commissioners of Divisions on the working of the District Boards in Bengal during the year 1904-05

The Resolution reviewing the Divisional Reports on the working of the District Boards in Bengal during the year 1903-04

The number of District Boards remained unchanged A new Local Board was established in the reconstituted Barrackpur subdivision, but its effective existence dates from the commencement of the current year The Union Committee at Binodepur, in Jessore, was abolished and a new one was established at Kotalpur in Bankura The number of Local Boards is now 105 and of Union Committees 58

2 *Constitution of District Boards*—The constitution of the District Boards was practically the same as in the previous year The number of meetings held was 625, a decrease of ten The number of meetings which were adjourned or proved abortive for want of a quorum fell from 54 to 35, the lowest number yet recorded The average attendance of members was the same as in 1903 04, a slight improvement in the attendance of official members being counterbalanced by a falling off on the part of non officials The Saran District Board held the largest number of meetings (30) All Boards held at least twelve meetings, except those of Hazaribagh (6), Palamau (8) and Manbhum (8),—all in the Chota Nagpur Division The usual explanation is given that more meetings were not required Distances are great in Chota Nagpur, and there are practically no railways The number of meetings is thus necessarily smaller than in other parts of the Province, but the Lieutenant-Governor agrees with the Commissioner that six meetings in a year are not sufficient in a district of the size and importance of Hazaribagh

3 *Constitution of Local Boards*—The total number of members of the Local Boards remained the same Nominated members were fewer by 23, while *ex officio* members increased by thirteen and elected members by ten The interest taken in the election of Local Board members has steadily declined, and almost each succeeding year has witnessed an increasing number of failures to elect representatives In 1890 91 the total number of elected members was 472 In the year under review, although there was a very slight improvement over the previous year, there were only 363 elected members, whereas, if all the electors had exercised their rights, the number should have been 494 This lack of interest is, no doubt, due in part to the limited powers and small resources of the Local Boards, but it cannot be said that they have discharged their work in such a manner as to demonstrate their fitness to assume heavier responsibilities

The number of meetings held was 1,233, of which 168 were adjourned, or proved abortive for want of a quorum The attendance of officials was the same as in 1903 04 and that of non officials rather worse, the total average attendance being 5 5 against 5 8 The average was highest (10 15) in the Sadar Local Board of Midnapore and lowest (2 4) in the Vishnupur Local Board in Bankura The largest number of meetings (22) was held by the Kishorganj Local Board in Mymensingh The Local Boards of Govindpur and Murshidbad Sadar held only three meetings each Fourteen Local Boards held eight meetings or less

4 *Elections*—General elections were held during the year in the districts of Burdwan, Birbhum, Bankura, Hooghly, 24 Parganas, Khulna, Rajshahi and Dacca, and in three thanas of Midnapore The elections were unsuccessful in four thanas in Burdwan and Bankura, two thanas in Birbhum, all the thanas in the Arambagh subdivision of Hooghly, one thana in Midnapore, five thanas in 24 Parganas, all the thanas in the Sadar subdivision, and some of the thanas in the Bagirhat subdivision, of Khulna and three thanas in Dacca The failures were due to the lack of interest on the part of the electors, except in the Arambagh subdivision, where the notices were not properly served It is clear that the public generally attach little importance to the elections

5 *Powers of Local Boards*—There was no material change in the powers' exercised by Local Boards

6 *Union Committees*—One Union at Binodepur in Jessore was abolished and one was formed at Kotalpur in Bankura The total number, therefore, still stands at 58 The income of the Union Committees rose from Rs 17,985 to Rs 19,699 Their expenditure was Rs 18,322, or about the same as in the previous year Thirty Unions spent the whole, or nearly the whole, of the funds placed at their disposal The best results are shown by the four Union Committees in Howrah and by two in the Noakhali district, all of which levied small sums by means of local taxation under section 118 of the Act The total amount thus raised in these six Unions was Rs 583 This sum, though small in itself, represents a distinct move in the right direction, and it exceeds considerably the aggregate taxation of all previous years since the Union Committees were first constituted There is thus some ground for the hope that the spirit of self help is growing, and that the people are beginning

to realize that taxation is a necessary preliminary to effective administration The Unions in the Orissa Division remained in the state of suspended animation in which they have continued for the last few years, and the Memari and Keshabpur Unions in Burdwan and Jessore were equally inactive

7 *Financial results* —The District Boards began the year with an opening balance of Rs 24,00,169 The total income amounted to Rs 79,62,577 and the total expenditure to Rs 81,39,279, leaving a closing balance of Rs 22,23,466

The following statements show the principal heads of income and expenditure during the last two years —

INCOME

8 *Provincial Rates (Rs 46,54,491)* —The receipts under this head increased by Rs 1,75,510 The rise was shared by all Divisions, except Orissa, where there was a slight falling off, due to poor collections in Cuttack and Puri In Khulna, Dacca, Noakhali, Gaya and Hazaribagh the gain was due mainly to revaluation Improved collections accounted for a considerable increase in Mymensingh, Patna and Bhagalpur, and also in Ranchi, where a large outstanding balance was realized during the year The short collections in Darbhanga were nominal, most of the outstanding balance having been paid immediately after the close of the year

The road cess is the only source of the Boards' income which has shown a steady and continuous expansion The increment in the year under review was more than double the average of the previous decade It is not likely, however, that this rate of progress will be maintained, nor could its continuance be regarded as healthy The cess is already levied at the maximum rate allowed by law, and any further increase must be due either to more accurate assessment or to higher rents There is now little room for

improvement under the former head, and it is not in the public interest that there should be a general enhancement of the existing rates of rent

9 *Interest (Rs 43,683)*—The income under this head was almost the same as last year and calls for no remarks

10 *Police (Rs 4,90,126)*—The income from pounds shows a slight decline of Rs 3,297 The state of matters described in the divisional reports is far from satisfactory The number of pounds has been largely increased in recent years, but the revenue is inelastic or decreasing, the supervision is defective, and the pound buildings are often quite unsuitable In the Dacca and Chittagong Divisions the number of pounds has risen during the last fourteen years by 49 and 42 per cent respectively, but, in spite of this, the income shows a considerable decline Similar results have occurred elsewhere also, and the only possible explanation is that adequate steps have not been taken to safeguard the revenue by duly advertizing the sales, by breaking up combinations amongst the farmers, and by managing pounds *khas* in cases where sufficient bids are not forthcoming—in short by taking measures similar to those which have been adopted so successfully in the case of excise shops The large outstandings balances in many districts afford additional evidence of lax administration In Howrah and Dacca, these balances actually exceeded the income for the year, and the arrears were also very large in the districts of Midnapore, Jalpaiguri, Shahabad, Puri and Manbhum In many cases large irrecoverable demands have accumulated simply because prompt steps have not been taken to resell pounds in default A most serious instance of mal administration recently came to notice in the district of Dacca, where, owing to the neglect of the most elementary precautions, defalcations on a large scale went on for years before they were detected It is clear that the whole system of pound administration requires careful examination Commissioners of Divisions are requested to give this matter their best attention during the rest of the current year and to notice the result of their enquiries in their next annual report

11 *Education (Rs 78,246)*—The Educational receipts declined by Rs 11,105 The decrease occurred mainly under the sub head "Miscellaneous," and was due to the abolition of the Lower Primary Scholarship Examination and the consequent loss of fees

12 *Medical (Rs 60,620)*—Owing to a decrease of Rs 8,426 under "Miscellaneous," the receipts were less than those of the previous year by Rs 4,692 There was an increase of Rs 3,329 under the head "Contributions" which includes both Government grants and subscriptions from the public In some districts *e.g.*, in Patna and Nadia, the subscriptions in aid of the Boards' dispensaries are, apparently, not entered in the accounts Care should be taken to see that they are properly entered in future

13 *Scientific and other Minor Departments (Rs 18,144)*—There was a net decline of Rs 2,440 under this head There was a falling off in the income from public exhibitions and fairs, due mainly to the fact that the Nangalband Fair in Dacca was not held during the year, the fairs for the Bengali years 1309 and 1310 both falling within the financial year 1903 04

The decrease under "Veterinary" is accounted for by the fact that in the previous year a donation of Rs 2,183 was made by Babu Promotha Nath Roy Chowdhury of Sontosh for the construction of a veterinary hospital building at Mymensingh

14 *Miscellaneous (Rs 2,27,320)*—The income under this head increased by Rs 31,990 These receipts are of a fluctuating character, and the variation does not call for any special remarks The share of the surplus profits of the Howrah Amta and Howrah Sheakhala Light Railways received by the Howrah and Hooghly District Boards increased by Rs 3,533 and Rs 2,079, respectively, while the Patna District Board received for the first time a sum of Rs 10,616 as its share of the surplus profits of the Bihar Bakhtearpur Light Railway

15 *Irrigation—Minor Works and Navigation (Rs 19,946)*—Only three District Boards have any receipts under this head There was an increase of Rs 491 in the receipts from the Hallitax Canal in Jessore, but this was counterbalanced by a fall of Rs 721 in the canal revenues in Chittagong

16 *Civil Works (Rs 8,42,042)*—The year under review was the first of the new Provincial Settlement, and it was found necessary to withdraw temporarily the Government subvention of five lakhs which had been given annually to the District Boards since 1901 02 The special grants for feeder roads aggregated only Rs 78,000, against Rs 2,71,717 in the previous year, but, on the other hand, grants amounting to Rs 53,000 were given for the first time for the improvement of the water supply The receipts on account of tolls from ferries showed an increase of Rs 38,137 The net result of these changes was a decrease of Rs 5,80,399 in the Boards' income under "Civil Works"

The receipts from ferries rose in twenty five districts and fell in sixteen The largest gains occurred in Dacca and Saran, where they were due to large arrear collections, in Darbhanga, Monghyr and Muzaffarpur, owing to good collections and favourable settlements, and in Malda, owing to the transfer of nine Government ferries to the District Board in lieu of part of the fixed Government grant The opening of the Bengal Nagpur Railway has reduced the receipts in Bankura and Midnapore, while in Patna they have declined owing to competition with the Railway and Steamer Companies The construction of new bridges on the sites of existing ferries has hitherto been hindered, not only by the cost of erecting them but also by the resulting loss of the ferry revenue This obstacle in the way of improving communications will to a great extent be removed, so far as the cost of construction is concerned, by a clause in the Bill to amend the Local Self Government Act, III of 1885, which provides that a Board may levy tolls on a new bridge until the expenses of construction, and the interest thereon at 4 per cent, together with the capitalized cost of maintenance, have been recovered

17 *Contribution (Rs 10,50,197)*—The figure here given represents the amount shown in column 70 as the "Contribution from Provincial to Local" This head includes (1) the amount drawn during the year on account of the fixed grants, aggregating Rs 10,01,881, which have been assigned to District Boards to establish an equilibrium between income and expenditure transferred to them from the Provincial accounts, and (2) the sums allotted for the improvement of communications in Government estates, which, in the year under review, amounted to Rs 63,400 It may be explained that the contribution received by the District Boards are entered in five separate columns, and that the total amount, including the above, is Rs 13,59,690 In column 26 under the main head "Education" is entered the income from educational endowments and sums received as subscriptions from the public for the maintenance of educational institutions Column 34, under the main head "Medical," shows subscriptions from the public and contributions from Provincial revenues in aid of expenditure on the prevention of plague and for other medical purposes Grants made for veterinary work are shown in column 40 (*a*) under the main head "Scientific and other Minor Departments" Column 65, under "Civil Works," indicates the contributions made by Government or private individuals for the execution of particular works, and includes grants for the improvement of communications generally and for the construction of feeder roads

18 *Loans (Rs 25,000)*—The District Board of Dinajpur received a sum of Rs 25,000 as a loan from Government for the construction of bridges

19 *Deposits and Advances (Rs 4,69,973)*—The receipts increased by Rs 25,333 but the variations call for no remark

EXPENDITURE

20 *Administration (Rs 3,10,292)*—The cost of office establishment increased by Rs 2,450, while contingencies were less by Rs 4,168, the net decrease being Rs 1,104 The changes were unimportant

21 *Police (Rs 26,158)*—The decrease of Rs 2,258 was shared by most districts and does not call for comment

22 *Marine (Rs 8,007)*—The expenditure decreased by Rs 209 In Chittagong a monthly subsidy of Rs 175 was paid for the first time to a private steamer service between Chittagong and Cox's Bazar, but in Noakhali the

aid formerly given to the Barisal Noakhali steamer service was withdrawn Endeavours are being made by the Noakhali District Board to promote a steamer service between the main land and the island of Sandwip

23 *Education (Rs 18,27,203)*—The total amount disbursed on education exceeded that of the previous year by Rs 7,619 The expenditure on inspection increased by Rs 10,644, on Training and Special Schools by Rs 4,086, and on Scholarships by Rs 7,113, while there was a decrease of Rs 29,761 under "Miscellaneous" The value of the figures is seriously affected by the carelessness with which the returns are compiled by some of the District Boards According to Appendix B no primary schools are maintained by the District Boards of the Patna and Bhagalpur Divisions, but in Form III Rs 1,20,097 is entered as having been expended on their maintenance in the former Division and Rs 52,080 in the latter In the Chota Nagpur Division only one primary school with 42 pupils is shown in Appendix B, while the expenditure, according to Form III, is Rs 18,354 The Lieutenant Governor looks to Commissioners to see that such obviously absurd mistakes are not committed in future The number of aided high schools shows an increase of three, and there were nineteen more middle schools The number of upper primary schools receiving aid rose from 4,101 to 4,126, but there was a decrease of 446 lower primary schools and of 28,827 pupils in such schools This decrease occurred in six Divisions, and was particularly noticeable in Bhagalpur and Chittagong, where it amounted to 16 and 10 per cent, respectively The causes of these variations will be discussed in the Resolution on the Education Report It is satisfactory to observe that the number of girls under instruction in primary schools increased by 8,073

Eleven District Boards failed to spend on education the full amount assigned to them for this purpose from Provincial Revenues In some districts the income from pounds and ferries has fallen off, while heavy charges have been incurred on medical relief which were not provided for in the Settlements This does not, however, excuse the failure to spend the full amount in Dacca and Bhagalpur, where the pound and ferry income largely exceeded the receipts estimated in the Settlement In future, when passing the budgets, Divisional Commissioners should take care that no portion of the funds assigned by Government for education is diverted to other objects

24 *Special Schools*—Technical schools are maintained by the District Boards of Burdwan, Midnapore, Rangpur, Pabna and Mymensingh, Industrial schools by the District Boards of Balasore, Ranchi and Hazaribagh, an Artisan school by the Tippera Board and Sericultural schools at Rampur Boalia and Sabong by the Rajshahi and Midnapore Boards, respectively A new Technical school, towards which the local Coronation Committee contributed Rs 6,000, was opened at Khulna in February 1905, and the District Board Monghyr have resolved to devote Rs 600 annually towards the upkeep of a Technical school in that district On the other hand the Midnapore Technical School has not been very successful, and it is proposed to affiliate it with the neighbouring Collegiate school The Malda Board have sanctioned the establishment of a weaving and dyeing school, and the construction of the building will shortly be taken in hand In Hazaribagh an Industrial school was abolished, while two such schools were established in Manbhum The sericultural school at Sabong, which was established in the previous year, has not yet received much support, but the teacher also gives instruction in his special subjects to the students of the Sabong Middle English school An experimental pottery class was opened in Nadia under a student who was trained at the Board's expense in the Bombay School of Art, but the work produced was not of good quality and the scheme has been abandoned The other special schools mentioned above continue to do good work Many of the Boards grant scholarships to students studying in the Sibpur College, the Bihar School of Engineering, and the Veterinary College at Belgachia

Something is being done in most districts to develope technical and industrial education, but the results are meagre, and there is almost infinite room for expansion The support received from the public in this direction is surprisingly small, considering the importance which they profess to attach to the development of native industries

25 *Industrial development*—The progress which has hitherto been made in the introduction of the fly shuttle loom is somewhat discouraging Only six of the Commissioners have referred to the subject in their reports for the year under review In last year's Resolution reference was made to the invention in Darbhanga of an arrangement by which the fly shuttle can be adapted to the ordinary country loom, thereby obviating the difficulty caused by the high price of the improved loom The cost of altering a country loom in this way is said to be less than Rs 7, while the outturn is almost equal to that of the ordinary fly shuttle loom If so, it is difficult to understand why the efforts of the Board to popularize the invention have met with such little success Copies of the report on the subject received from Darbhanga will be circulated to other District Boards with a view to experiments being made elsewhere

Some weavers in various parts of Midnapore are said to have adopted fly shuttle looms, but only for the coarser kinds of cloth, they profess to find them unsuitable for weaving fine textures In Manbhum a weaving school has been started at Raghunathpur, where the use of the fly shuttle loom is taught At Pokhuria in the same district the teaching class had to be closed temporarily for want of a house in which to set up the looms A grant of Rs 1,000 has recently been made by Government to provide for this and for the purchase of looms and accessories Experiments will be made there with the adapted country loom with the ordinary fly shuttle loom, and with the fly-shuttle loom as used by the Japanese

Useful industrial and agricultural exhibitions were held at Khulna, Rangpur and Monghyr, and at Brahmanbaria in Tippera At Rangpur the working of the fly shuttle loom was explained, experiments were made with agricultural implements brought from America, and a simple process of butter making was demonstrated An exhibition of the arts and industries of Bihar was held in connection with the Sonepur Fair, at which specimens of wood carving, carpets, stoneware, glassware, muslins and ironware were shown A cattle show was held at Comilla, but proved a failure

26 *Medical* (*Rs 4,30,904*)—The expenditure under this head increased by Rs 21,627 The outlay on hospitals and dispensaries rose by Rs 31,746, but that on sanitation and vaccination showed a decrease of Rs 7,628 and that under 'Miscellaneous" of Rs 2,820 The number of dispensaries maintained by the Boards rose from 194 to 200, and the number of aided dispensaries from 227 to 233 Three new dispensaries were opened in Burdwan, two each in Nadia and Mymensingh, and one each in Rangpur, Shahabad, Darbhanga and Bhagalpur One aided dispensary in Birbhum and one in Jessore were brought under direct management, while in Gaya two dispensaries which were previously maintained by the Board were transferred to the aided class, and one, in Malda, to the Local Municipality Four dispensaries were closed (in Backergunge, Monghyr, Purnea and Puri)

In several districts endeavours are being made to supplement the work of the regular dispensaries by other measures designed to bring medical relief more directly to the homes of the people The system of supplying medicine chests to the village headmen, which has been tried in Backergunge, has not proved very successful Greater success has attended the employment in Khulna and Birbhum of itinerant doctors whose duty it is to visit the local markets and travel from village to village This system may with great advantage be tried in other districts Steps should also be taken to increase the utility of dispensary doctors by arranging for them to visit on market days any *hats* that there may be within a reasonable distance of their dispensaries and also some of the larger villages in their neighbourhood The floating dispensary in Faridpur has proved a great success, and the Lieutenant Governor would be glad to see similar dispensaries introduced in other water districts It is, of course, most important, in the case of these dispensaries, and also in that of itinerant doctors, that the places to be visited and the dates of each visit should be definitely fixed and notified beforehand

27 *Sanitation*—The expenditure shown in the accounts as incurred for sanitary purposes fell from Rs. 32,380 to Rs 26,313 The sanitary work done by the Boards is of a somewhat varied character It includes preventive measures against plague, cholera and other epidemic diseases,

sanitary arrangements at fairs and *melas*, anti malarial operations and experiments in village sanitation, such as the clearance of jungle, the excavation of road side drains and the filling up of hollows containing stagnant water During the past four years the Patna District Board has been working on a regular scheme for cleansing villages and rural towns by the removal of filth and rank vegetation, the filling up of ditches and the like In pursuance of this scheme, the Sadar, Bihar and Dinapore Local Boards cleansed, in all, 215 insanitary villages at an aggregate cost of Rs 1,267, while the Barh Local Board spent Rs 633 in improving the drainage of two non municipal towns Other districts have followed the example of Patna, but without as yet much tangible result The best work appears to have been done in the Contai subdivision of Midnapore, where a sum of Rs 300, supplemented by local contributions of the same amount, was spent in cleaning up 20 villages The Boards have hitherto had little money to spare for village sanitation nor have they the establishment required for local supervision

28 *Veterinary charges (Rs 28,302)*—According to the returns 33 District Boards incurred expenditure on veterinary work against 25 in the previous year, while the total charges increased by Rs 5,016 The figures, however, cannot be relied upon, a sum of Rs 4,480 was wrongly entered under other heads in the previous year, while in the year under review no expenditure under this head is shown in Noakhali, Patna and Dacca, though it is clear from the reports that money is being spent on veterinary objects The Veterinary Assistants continued to prove their utility in combating out breaks of cattle disease, and the public are learning to appreciate their services In several districts work was hampered by the difficulty of obtaining qualified men Steps are being taken to overcome this obstacle, and the Boards themselves are assisting by granting scholarships in the Veterinary College

29 *Civil Works (Rs 46,77,574)*—The total expenditure under this head was less by Rs 1,94,718 than in 1903-04 This is more than accounted for by a falling off of Rs 2,20,666 under "Communications—Original works" The decrease under that sub head was most marked in Mymensingh (Rs 58,713), Backergunge (Rs 41,438), Muzaffarpur (Rs 61,965) and Midnapore (Rs 50,584) In some cases the result is ascribed to the temporary withdrawal of the Government grant for the improvement of communications, but while this is no doubt responsible for the decline in some districts, it can hardly have affected the total figures for the Province The unspent balances of the grants of previous years amounted on the 1st April 1904 to more than four lakhs, and the special grants for feeder roads made during the last three months of 1903 04 exceeded two lakhs The decrease seems rather to be due to the failure of some Boards to work up to their sanctioned programmes

Details are given in the divisional reports of the chief works executed during the year Several large bridges were constructed in Patna, Gaya, Shahabad and Saran, and important feeder roads were opened out in Patna, Muzaffarpur and Darbhanga Good progress was made in Ranchi with the road from the district head quarters to the new subdivisional station at Gumla

30 *Water supply and Water works (Rs 1,22,189)*—An offer was made during the year by Government to contribute one third of the cost of all works for the improvement of the village water supply, up to a maximum of Rs 5,000 in any one district, or Rs 50,000 in the whole Province This offer met with a ready response in some districts, but not in others No applications at all were received from the Rajshahi and Patna Divisions The limit of Rs 5,000 for a district was eventually waived, and when all applications had been granted, the total amount of the Government contributions in Board districts was Rs 53,026 Of this sum, no less than Rs 33,184 was received by the districts in the Presidency Division, Nadia and Jessore getting Rs 10,000 each and Khulna Rs 7,300 In the 24 Parganas many of the contributions promised by the villagers have since been withdrawn, and the Board are now unable to spend the Government grant In most cases, owing to the delay in obtaining promises of assistance from the public, the grants were made very late in the year, and are, therefore, being expended during the current year This accounts for the fact that in

several districts the Boards were unable to spend the whole amount provided in their budgets for water-supply, but it is disappointing to find that the total expenditure was less by Rs 13,096 than in the previous year The above explanation moreover will not account for a decrease of Rs 3,081 in the district of Birbhum or for one of Rs 7,579 in the Patna Division, where the expenditure is lower than it has been in any year since 1896 97 The standard expenditure of Rs 5,000 was attained only in seven districts, three of them being in the Dacca Division Mymensingh as usual is easily first with an expenditure of Rs 21,100, followed by Backergunge (Rs 10,431) and Bhagalpur (Rs 9,798) Even with the additional funds now placed at their disposal, it may be difficult for some Boards to spend Rs 5,000 a year on water supply, but the Lieutenant Governor trusts that every effort will be made to attain to this standard

31 *Drainage works* —The re excavation of the Khuda khal in the 24 Parganas was completed, the expenditure during the year amounting to Rs 1,927 The great Magrahat Usti drainage project in the same district has been adopted by the Board and will be carried out under the Sanitary Drainage Act It affects 290 square miles of country The estimated cost of the scheme is Rs 17,39,000, towards which Government has contributed Rs 5,00,000 In Hooghly the excavation of the old river Kausiki, for which the late Babu Bama Charan Bhur offered a contribution of Rs 30,000, is under consideration, and will probably be carried out with the assistance of Government and the District Board No progress has been made with the scheme for the drainage of the Chalan Beel on the borders of Pabna and Rajshahi The Drainage Commissioners who were appointed to consider the project are opposed to it, mainly on the score of expense A smaller scheme for the drainage of the Cheroil Beel in Pabna has been drawn up, and this work will probably be carried out

32 *Roads* —Detailed information with regard to roads is contained in Appendix C The length of metalled roads has increased by 75, and that of unmetalled roads by 132, miles The length of village roads has decreased by 167 miles The expenditure on the repairs of metalled roads was nearly eight lakhs, in the case of unmetalled roads it exceeded nine lakhs, while for village roads it was rather less than three lakhs The average expenditure per mile on repairs was Rs 288 for metalled, Rs 37 for unmetalled, and Rs 14 for village, roads In the case of metalled roads the cost varied from Rs 678 in the Chittagong Division to Rs 116 in Chota Nagpur In the case of unmetalled (including village) roads there is less variation, in seven Divisions the cost was between Rs 20 and Rs 27, but it rose to Rs 40 in the Dacca, and to Rs 52 in the Chittagong, Division The expenditure on original works connected with metalled roads exceeded three lakhs, while over eleven lakhs was expended on unmetalled, and more than half a lakh on village, roads The largest expenditure under the former head was incurred by the District Board of Rajshahi and, under the latter, by Rangpur

33 *Railway Feeder Roads* —The great progress which has been made in recent years in the extension of railways has completely altered the conditions which formerly existed in the matter of communication by road Some of the old roads have been largely superseded by the railways, while many new ones have had to be made in order to connect the railway stations with the country behind them The construction of these new roads has thrown a heavy burden on the resources of the District Boards, which, if unaided, they would have been quite unable to bear In the years 1901 02 to 1903 04 an annual grant of five lakhs was given from Provincial Funds to augment the general income of the Boards, and special grants aggregating Rs 4,78,000 were made for the construction of specified feeder roads In the year under review a further sum of Rs 78,000 was given for feeder roads It was found impossible to renew the grant of five lakhs, but at the commencement of the year the Boards still had in hand an unspent balance of more than four lakhs from the grants previously made The total expenditure on feeder roads during the year amounted to Rs 3,43,000 The Howrah District Board spent Rs 20,065 in constructing and improving eight feeder roads to the Bengal Nagpur Railway and Rs 3,540 on five roads leading to the Howrah Amta Light Railway The District Board of

the 24 Parganas expended Rs 20,019 in improving and metalling two roads which serve as feeders to the Baraset Basirhat Light Railway and completed, at a cost of Rs 18,044, the road from Bawali to the Budge Budge Railway station In Monghyr Rs 31,346 was spent on four feeder roads to the South Bihar Railway In Khulna Rs 14,822 was spent on metalling the Satkhira Bhamra Road A good deal of work was done in Palamau, Rangpur and Dinajpur

34 *Miscellaneous Public Improvements* —Excluding the Rajshahi Division, for which no details are given, the expenditure on road side arboriculture was Rs 42,602, or rather more than in the previous year The outlay varied from Rs 4,601 in Gaya and Rs 4,108 in Monghyr to Rs 107 in Champaran and nothing at all in Chittagong The Lieutenant Governor has recently had under consideration the question of providing for the carrying out of this important work in a more regular and systematic way, and detailed instructions will be issued shortly The rules as to working plans will be revised and a short manual will be prepared for the guidance of the Boards The divisional reports do not show what income was derived from road side trees This should be stated in future years Full information should also be given as to the progress made in each district

35 *Railways and Tramways* —Four Light Railways constructed under the guarantee of District Boards are now in existence The Howrah Amta line has proved by far the most successful, and the Board's share of the surplus profits during the year amounted to Rs 34,823 The Champadanga extension of this line has now been opened as far as Antpur The Howrah Scakhala line also shows an improvement on the results of the previous year, the Hooghly District Board receiving Rs 3 706 as its share of the net profits The Bakhtear pur Bihar Light Railway, which was opened in July 1903, had a prosperous year, and was able to pay the Patna District Board Rs 10,616 as its share of the profits The Light Railway from Baraset to Basirhat in the 24 Parganas was opened for traffic on the 1st February 1905, and its extension to Taki is now under consideration The Ranaghat Krishnagar Light Railway in Nadia was acquired by Government in July 1904, and the Board have been relieved of future charges on account of the guaranteed interest, towards which Rs 13 014 was paid during the year

Undeterred by their previous experience, the Nadia District Board have undertaken a survey for a tramway from Krishnagar to Jalanghi *via* Meherpur The District Board of Khulna have abandoned the project of a Light Railway from Khulna to Bagirhat in view of the fact that the Alaipur Khal is to be re opened, they are, however, anxious to arrange for the extension of the Baraset Basirhat Light Railway from Basirhat to Satkhira In Dacca no progress has been made with the scheme for a steam tramway from Dacca to Sealo Projects for Light Railways are under consideration in Shahabad, Saran, Darbhanga and Monghyr

A difficulty has sometimes been felt in permitting District Boards to guarantee or construct new lines, because, if the Board is unable to meet its liabilities, the responsibility is thrown back on Provincial, and, ultimately, on Imperial revenues In order to meet this objection it is proposed to amend the law so as to empower the Boards to levy a special cess for the payment, either of guaranteed interest on capital or of interest due to Government for loans raised for the construction of tramways and light railways

36 *Contributions Rs 63,740*) —The most important items classed under this head are payments for establishment in offices of account and control and refunds of the unexpended portions of Government grants for special works

37 *Deposits and advances* (*Rs 5,70,875*) —The charges declined by Rs 33,288 The fluctuations are unimportant

38 *Closing balance* (*Rs 22,28,466*) —The actual closing balances of the Boards, excluding deposits, amounted to Rs 20,28,608 against Rs 21,88,434 at the end of 1903 04—a decrease of Rs 1,59,826 The balances exceeded one lakh in Midnapore, Nadia, Backergange, Gaya and Darbhanga These large balances are due to the failure of the Boards to work up to their sanctioned programmes, and efforts should be made to reduce them In

Bankura, on the other hand, owing to short road cess collections, there was no closing balance at all, while in Dinajpur it was only Rs 8,291

39 *Amendment of the Bengal Local Self Government Act*—Owing to the large number of additional amendments which have been found necessary, it has not been possible to proceed with the Bill to amend the Local Self Government Act, 1885, which was introduced in Council in March 1904 The sanction of the Government of India to the inclusion of these further amendments has been applied for Amongst other things it is proposed to provide for the imposition of the cess referred to in paragraph 36, the formal delegation to Commissioners of certain powers which are at present exercised by the Local Government in accordance with their recommendations, and the improvement of the position of Union Committees

40 When the District Boards were formed in 1887 they inherited from their predecessors—the District Road Cess Committees—the work and the revenue of those bodies, the principal source of income being the road cess At the same time, to enable them to meet the new duties which were imposed upon them, principally in connection with education, the entire receipts under the Cattle Trespass Act and the income from certain ferries were transferred to them from the provincial account, any excess of expenditure over income being made good by a fixed grant from Government It was believed that the revenue from pounds and ferries was susceptible of considerable improvement, and that, from the expansion of the income under those heads, the Boards would be able to provide for the medical needs of their districts and for other local requirements These anticipations have only partially been fulfilled, and, while the gain from ferries has been substantial, the increase under pounds has been trifling The road cess, it is true, has shown a steady expansion, the average annual increment during the last decade being Rs 85,000, but this is not sufficient to meet the growing demand for improved communications, and especially for feeder roads For several years the resources of the Boards were augmented by an annual grant of five lakhs from Provincial revenues, but it was found necessary to discontinue this grant in the year under review The Government of India have now increased the provincial assignment by twelve and a half lakh, in order to permit of an annual grant to District Boards of sums amounting in the aggregate to one fourth of their receipts from road cess A new and growing source of income has thus been placed at their disposal, and they will at last be in a position to make adequate provision for their various needs not only in respect of roads and bridges, but also in other directions They will be able to take up veterinary work, where they have not already done so, and to increase their expenditure on schools and hospitals and on water supply and sanitation

By order of the Lieutenant Governor of Bengal,

E A GAIT,

Offg Secretary to the Govt of Bengal

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON THE WARDS AND ATTACHED ESTATES FOR THE YEAR 1904 1905

REVENUE DEPARTMENT—LAND REVENUE

Calcutta the 21st November 1904

RESOLUTION—No 3081

READ—

The Report of the Board of Revenue on the Wards' and Attached Estates in the Lower Provinces for the year 1904 1905

The Report was submitted this year by the Board of Revenue on the 5th September

2 *Number of estates under management*—In all 176 estates were under management during the year as against 154 in the previous year

3 *Payment of revenue*—The revenue and cesses due to Government were generally paid punctually, the total payments representing 96 3 per cent of the demand as against 95 2 in the previous year

4 The total collections of rent and cesses due to estates have declined, being 96 0 per cent on the current demand as against 101 2 of the year 1903 1904

5 *Balances*—The total uncollected balance due to estates under management amounted to Rs 70,83,361, or nearly 77 per cent of the current demand of the estates, as against Rs 52,04 066, or 66 3 per cent in the previous year The balances in most of the estates have increased In the Chittagong Division it is explained that they could not be reduced below 25 per cent of the current demand owing to laxity on the part of the tahsil staff The Collector of Chittagong has reported that if considerable improvement is not made in the current year, it will be necessary to make a change in the collecting agency The number of certificates filed during the year showed a large increase as compared with the previous year The increase is found largely in the Patna, Bhagalpur and Chota Nagpur Divisions There was also a large increase in the number of rent suits filed during the year The Lieutenant Governor agrees with the Board that this increase is not to be viewed with favour, as it is an indication of slackness on the part of the collecting agency in failing to realize amicably rent and cesses from the tenants

6 *Reduction of debts*—Altogether Rs 47,34,774 were paid in liquidation of debts as against Rs 40,34,569 in the previous year The balance at the close of the year amounted to Rs 1,77,50,515 as against Rs 1,68,24,599 at the close of the previous year

7 *Cost of management and expenditure on improvements*—The total cost of management was 10 6 per cent of the current demand as against 9 8 in the previous year The increase was shared by all the divisions except Bhagalpur

Two lakhs and a half were spent on works of improvement, schools and dispensaries as against three lakhs and thirty thousand in the previous year

8 *Tours of Managers*—The Lieutenant Governor expected that the present report would show an improvement in respect of tours of Managers of estates, but he is disappointed to find that, as in the previous year, several Managers have failed to spend the prescribed period of 90 days on tour, though he is satisfied that in some cases there were sufficient reasons for the short tours His Honour, however, is glad to notice that the Board are attaching great importance to these tours, and that they have directed the Managers to pay more attention to this important portion of their work

9 *Education of Wards*—The arrangements made for the education of the wards in the case of estates administered under Act IX (B C) of 1879, which are detailed in paragraph 21 of the Board's report, show that careful attention continues to be paid to this important subject As regards the compulsory education of the children of encumbered proprietors in Chota Nagpur, the Board have under consideration certain amendments of the Chota Nagpur Encumbered Estates Act, VI of 1876 It is reported that the Deputy Commissioner of Hazaribagh is engaged on the preparation of a scheme for the proper education of such boys The Lieutenant-Governor desires that the Board will submit a report on the subject as soon as the scheme is ready for consideration and orders

10 The thanks of the Lieutenant Governor are due to the Board for their careful supervision and efficient administration of the estates under their charge during the year The good services of the officers commended by them will be communicated to the Appointment Department of this office

11 The following extracts from the Report are published for general information

By order of the Lieutenant Governor of Bengal,

H W CARLYLE,

Offg Chief Secy to the Govt of Bengal

Extracts from a Report on the Wards' and Attached Estates in the Lower Provinces for the year 1904-1905

Number of estates under management

4 The total number of estates under charge of the Court of Wards at the beginning of the year under report was 150 Of these, eight were released, while twenty six new estates were brought under management during the year, making a total of 176 under management during the year and leaving 168 at the close of the year

Rent and cesses due to superior landlords

6 The payment on account of rent and cesses due to superior landlords amounted to 68 4 per cent of the demand as against 65 8 per cent in the previous year

Collection of rent and cesses due to the estates

7 The collection of rent and cesses due to the estates has fallen off, being 96 0 per cent on the current demand as against 101 2 of the year 1903-1904

Presidency Division—The collections were lowest in this Division in the Bawali estate, being 68 0 per cent of the current demand The poor result was, as in the previous year, due to the number of joint shareholders Proceedings were filed under section 93 of the Bengal Tenancy Act, and the District Judge has since the close of the year, ordered the appointment of a common Manager

Rajshahi Division—The falling off in collections in the Surkutia estate (86 6) is attributed to the illness of the Manager as well as to the failure of crops and to the fact that much of the Manager's time was occupied in the purchase of the Patichora property from the Pakour estate The short collections in the Patichora estate for the period after its purchase by the Surkutia estate (64 3) have not been explained but were evidently due to the change of proprietorship The low percentage of collections in the Tajhat estate (83 2) was chiefly due to the fact that the executors of the estate stood in the way of the Court's management during the principal harvest season of the year

Dacca Division—The exceptionally short collection in the Bhawal estate (41 5) was mainly due to the opposition of the Rani

Patna Division—In Tikari (74 8) the fall in the percentage of collections is attributed to the general dislocation of the collecting machinery in the period preceding the release of the estate and the unwillingness of the tenantry to pay their dues to the outgoing management The management of the Surajpura estate (68 8) was very indifferent during the past year The rent roll is in some confusion and the mufassal collecting staff is weak, while the establishment has been inadequately supervised The Manager has since resigned and the new management will it is hoped, improve the affairs of the estate The cause of the short collections in the Tamkuhi estate (54 4) is given in the next paragraph The Mahtha's estate (87 5) suffered from the disadvantages usually found in an involved estate during the first year of the Court's management There was a falling off in both the Hatwa and Bettiah estates due to bad harvests, but the former collected more than 100 per cent of the current demand

Bhagalpur Division—In the Khagra estate (82 7), the collecting staff gave some trouble owing to the change of management A sum of nearly half a lakh due by one of the patnidars which was covered by the sale of the taluk was not adjusted during the year The falling off in the Pakour joint estate (8 7) was due to damage to crops by frost, flood and untimely rainfall to low market price of lac and to an attachment and subsequent sale of extensive properties on decrees obtained by Messrs Andrew, Yule & Co in a foreclosure suit The very high percentage of collections in the Ratan estate (279 6) is due to the fact that the demand, shown for the financial year under review, is only one half of the actual demand, the remainder having been excluded as not due during the financial year

Chota Nagpur Division—The collections were generally satisfactory in all the districts In Barrabhum the low percentage (89 1) was due to the impending release of the estate The Pandra 2nd and 4th kismats estate (24 2) came under management during the year under report, and the collections were consequently very poor

Agricultural improvements or experiments.

Farms

14 The question of contribution from wards estates for the maintenance of district and Divisional demonstration farms is under the consideration of the Board in connection with the development of the Agricultural Department It is hoped that, as soon as the success of particular experiments in the large farms about to be established is assured, demonstrations of these results in the wards' estates may

open the eyes of raiyats to the advantages of seed selection and other improvements in cultivation At present there is a want of continuity and aim in the various experiments conducted in wards' estates, and the Board welcome the prospect of the appointment of a trained itinerant agency to direct and control the agricultural operations which may be conducted from time to time under the Court of Wards management

Survey and record of rights

15 *Burdwan Division* —In the Nyagram estate, which was under survey and settlement under the Bengal Tenancy Act, attestation of records and draft publication were nearly completed during the year

Presidency Division —The properties in Backergunge appertaining to the Tagore and Bhukailas Nos II and III estates are under survey and settlement The work was finished in four mauzas and commenced in the remaining ones of pargana Patikara in Tippera appertaining to the Bhukailas estate No I In the Syudpur Trust estate survey and record of rights in respect of Dihis Siromani and Maheswarpasa were undertaken during the year

Rajshahi Division —The survey and settlement of the Malda portion of the Churaman estate was conducted under the supervision of the Collector of Malda Objections under section 103A of the Bengal Tenancy Act have been disposed of and the completion of the settlement is pending for the disposal of suits under sections 105 and 106 In the Maldwar estate, which was released during the year, the settlement in Toke Barabari is expected to be finished shortly The final publication of the record of rights of all the three mahals of the Majdiha estate which are under settlement has been made and the fair rent suits in one of them have been disposed of The survey and settlement of lot Koya appertaining to the Tajhat estate is going on The question of the settlement of the whole estate is under consideration In the Maldwar and Churaman estates 328 and 2,285 mutations were effected Almost all the boundary pillars in the former estate were inspected In the latter estate 208 boundary marks were inspected and found in proper condition

Dacca Division —There were 4 313 mutations recorded during the year in the Dakhin Shahbazpur estate The prescribed registers were properly kept and the raiyats rent-rolls were examined by the Manager during his inspection of the tahsil offices Field to-field inspection was made by the tahsildars The other estates in Backergunge were under the district survey and settlement department In about one fourth of the main land estates the record of rights has been completed draft records were published in about one-eighth of the estates, and in the remaining portion the proceedings have reached the record writing stage In two villages of the Haturia estate final publication has been made, in about 115 villages draft records have been published, and in the remaining villages attestation work is going on The villages in four thanas in the Madhabpasa estate have reached the stage of final publication in a small number of villages in two other thanas the draft records have been published and the rest of the villages of the estate are at the stage of record writing

Patna Division —The survey and settlement of the villages in Purnea appertaining to the Guzri estate have been completed The settlement records have been brought into use in the Deo estate since the commencement of the present agricultural year and the patwaries have been supplied with copies of khatians and the registers necessary for the maintenance of the records The system of maintenance of records was further decentralized by delegation of larger powers to Circle Officers in the Hatwa Raj estate with the object of simplifying the record of mutations The work of recording mutations in the Bettiah estate is at present very indifferently performed Efforts are being made to improve it, and to induce the thikadars holding under the estate to report all mutations in the lands held by them. In the Narhan estate the appeals under sections 105 and 106 of the Bengal Tenancy Act were decided. Careful arrangements have been made to secure a proper record of mutations but this will not be possible without a radical change in the policy hitherto obtaining in accordance with which no mutation is recorded except on the application of the raiyat

Bhagalpur Division —The final publication of the record of rights was made in the Lugma estate during the year under report, and the attestation of one mauza of the Cleveland Memorial Trust estate was finished In the Khagra estate cases under sections 105 and 106 of the Bengal Tenancy Act were disposed of and a few appeals remained pending at the end of the year The survey and settlement of the Ghati and Pathrole estates have been completed The resettlement of pargana Ambar appertaining to the Pakour separate estate is expected to be completed shortly

Orissa Division—The survey and settlement of both the estates in this Division (Dompara and Parikud) are under consideration

Chota Nagpur Division—In Ranchi survey and settlement have been completed in five estates and the work is going on in six others The jamabandis of the five estates completed are being prepared according to the settlement papers In the Chorea estate the record of rights in respect of village Chorea is being prepared by a Deputy Collector The amicable settlement of the 52 Sonthali villages of the Tundi estate in Manbhum was completed, but the Sonthal manjhis now decline to accept the rates and sign the *kabuliyats* Two villages of the Pachete estate were surveyed and settled and the preparation of the record of rights of three villages in the Burdwan district was completed In the estates in Singhbhum some of the terms of the record of rights and the patta for the village headman sanctioned by the Board have been objected to by the Raja of Porahat and the proprietor of the Kera (L N Singh) encumbered estate

20 The relations between the tenants and the managing agency appear to have been generally satisfactory throughout the province

Laws

22 There was no change in the laws administered by the Wards Department Certain amendments of the Court of Wards Act, IX (B C) of 1879, are under contemplation, and these have been separately submitted to Government The Board have also under their consideration certain amendments of the Chota Nagpur Encumbered Estates Act, VI of 1876

General

Legal Adviser to purdanashin *ladies under the Court of Wards*

24 Miss Cornelia Sorabji has held the appointment of Legal Adviser to the *pardanashin* ladies under the Court of Wards throughout the year

She has paid visits to the ladies of the Narhan, Tajhat, Tushbhandar, Churaman, Surkutia, Bhukailas, Panihati and Bawali estates By the exercise of great tact she has succeeded in compromising litigation in no less than four cases and has been consulted by ladies on private matters in seven others The Board hope that in future the District Officers will be able to make a more free use of her services and that the ladies under the Court of Wards will feel that they have a friend whom they may consult at any time and who is always ready to explain their real wishes to the District Officers and to deliver and explain to the ladies at first hand the orders and directions of the Court of Wards

The Board join with the District Officers in expressing their very high appreciation of the valuable services of Miss Sorabji

Number of estates

54 The number of estates managed under Act VI of 1876 was 68 at the beginning of the year under report In the course of the year sixteen estates were added and three restored to their proprietors the number at the close of the year being 81

Debts of estates

58 The payments on account of debts due by these estates aggregated Rs 4,49,848 during the year under report as against Rs 3,51,615 in the previous year, the balance due at the close of the year having been Rs 33,66,226

Hazaribagh—In one estate the debts were paid off in full and in another the scheme has not yet been sanctioned In seven estates the payments reached or exceeded the provisions in the scheme The deficiency of payment in the Dighi, Hosir II, and Morna estates is due to short collections In the Dhargali estate the short payment was due to expenditure on repairs of *bunds* and *anaits* and non receipt of compensation for lands acquired In the Nowdiha estate it was due to heavy law expenses and the *sradh* ceremony of the proprietor's wife In the Palganj estate the deficiency was mainly due to the fact that Rs 30 000 due for compensation for lands acquired was not paid

Ranchi—No scheme has been sanctioned in one of the estates, and in fifteen estates the payments exceeded the provisions of the schemes In three estates, payment was not made for want of funds In the Sirf estate the sale of a portion of the property provided in the scheme could not be effected during the year In the Sahijna estate a large amount was kept in reserve to prevent the sale of the interests of the estate in a village owing to the default of a co sharer The Jingi estate should, according to the scheme, have been released in 1902 1903 but the Commissioner is enquiring whether it cannot be freed from debt without the sale of a portion of the property

Palamau.—No scheme has been sanctioned in one of the estates, and the payment exceeded the provisions in the schemes in the case of seven others The short payment in the Namoodag estate is due to the repayment of Land Improvement Loans to Government and to expenditure on a social ceremony In the Garhwa estate the deficiency was on account of short collections in a village where there was an outbreak of plague In the Jaipur and Deogan estates it was due to payment of arrear rents and cesses and of salaries of ghatwals The failure to realize the debts due to the Babhandih (L B Singh) estate delayed payments of its own debts in accordance with the provision in the scheme

Manbhum.—The debts due by the Barabhum estate have been paid off in full, mostly from funds privately raised by the proprietor The estate has since been ordered to be released The Manbazar and Naro estates had to pay heavy arrears of rent and cesses and hence there was no balance for payment of debts due by them In three estates the payments exceeded the provisions in the schemes, and in two the deficiencies have been made up since the close of the year In the Bharamahal estate the short payment is chiefly due to Rs 1,000 having been set apart for the marriage of a sister of the proprietor

Singhbhum.—In two estates the payments were in advance of the schemes In the Kera (L N Singh) estate, a sum of Rs 600 was kept in hand for works of improvement not provided in the scheme and hence there was a deficiency in the payment of the debts In two other estates the short payments are due to the increase in recent re settlements proving, less than was expected

The mean pressure temperature, etc. are deduced from the traces of the Barograph and Thermograph

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A M of that day

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM FOR THE MONTH OF OCTOBER 1905

THE weather of the month of October was characterised by one long and almost complete break in the rains followed by a late and not very vigorous revival

The general rain with which September ended all over the Province continued on the 1st of October but practically came to an end on the 2nd when the pressure became nearly uniform over the Bay On the morning of the 4th the barometer was lowest in the extreme south so that the pressure gradient maintained a very gentle north to south slope for several days, causing northerly breezes and complete dryness over the Province On the 8th the barometer rose in the extreme south of the Bay, and the area of lowest pressure then lay north east of Ceylon until the 14th (giving heavy rain in Madras all the time) whence it travelled slowly northwards but without at all deepening until the 17th when it began to develop very slowly in the north west quarter of the Bay A shallow depression in the Andaman Sea had given a little rain on the coast of Burma since the 13th but Bengal remained entirely without rain until the 17th when a few showers fell in South East Bengal and the coast of Orissa Precipitation became more general along the Orissa coast and spread all over the south of Bengal and though sometimes heavy in Orissa did not increase much in intensity in Bengal until the 22nd when a stormy indraught from the south east carried rain into every division of the Province At this time the shallow depression was still moving slowly northwards in a direction nearly parallel with the coast On the 24th the rainfall was again restricted to the southern half of Bengal and Assam, where it was however heavy The path of the cyclonic storm curving round to the eastward again on the 25th was further confined to East Bengal The centre of the depression passed inland just north of Chittagong at 4 A M on the 26th and rapidly disappeared in the Assam Hills On this date the rains finally ceased in Bengal, an area of high pressure over the Central Provinces maintaining dry westerly winds On the 1st of October the barometer was again practically uniform all over the Bay and Province prior to the setting in of the north east monsoon

Summary of Pressure.—The pressure which began by being below normal over the northern land area while slightly above over the Bay, rapidly rose to far above normal on land while remaining in nearly constant excess in the south This abnormal distribution attained a maximum on the 8th and continued in the same sense until the 15th when the barometer fell again just below normal and continued increasingly so until the 28th when a gentle reversal began to set in Integrating the pressure for the whole month was just a little below its normal value over the Province

Summary of Temperature.—While it was raining mean temperature was a little below normal but the slight excess during the longer period of drought gives an average for the month generally about 1 above normal Cuttack recorded the highest maximum for the month viz.—94°4 and Daltonganj the lowest (excepting, of course, Darjeeling with 46° and Shillong with 43°), viz.—56°

Summary of Rainfall.—The total rainfall for the month shows a considerable excess in East and South West Bengal a considerable defect in North Bengal and Orissa and a very large defect in Chota Nagpur and Bihar The total rainfall for the whole South West monsoon period was thus brought very close to its average value in every division except Orissa where it was 20 per cent less than proper

East Bengal had from too many rainy days the rest of Bengal just as many as ordinarily in October while Bihar Orissa and Chota Nagpur had two too few

The following table gives a comparison between the actual monthly and total rainfall and the normal rainfall of the Province up to the end of October in the same form as has been employed in the previous monthly abstracts of the present year The figures show the rainfall of each month of the present year expressed as a percentage of the normal rainfall for that month The table thus gives a condensed summary of the rainfall data of the year

for each meteorological division The first ten columns give the percentage amount of rain fall received in each month and the last column the percentage rainfall of the whole period from the 1st of January to the end of October —

SURVEYOR GENERAL'S OFFICE

No 130 —The 27th November 1905 —The following Rules and Regulations relating to the Mathematical Instrument Office are published for the information and guidance of public officers

F B LONGE LT COL R E,
Surveyor General of India

SURVEY OF INDIA

Rules and Regulations of the Mathematical Instrument Office, 15, Wood Street Calcutta

1 The Mathematical Instrument Office is a depot for the supply, repair and adjustment of mathematical and other instruments employed in various Government Departments and Offices The instruments issued may be new or second hand at the discretion of the officer in charge As a rule new instruments are not supplied if serviceable second hand ones of the class required are available Instruments when no longer required are also taken into store, from Government Departments and authorised offices, at a valuation which is given for each instrument returned

2 All transactions regarding instruments between the Mathematical Instrument Office and other Government Departments or offices are adjusted by book transfer

3 Instruments when they can be conveniently spared, may be issued on "cash payment" to Municipalities and other similar bodies and also to individual officers With the approval of the officer in charge, instruments may also be sent to the Mathematical Instrument Office for repairs" on similar terms All instruments issued to Commercial Departments or on "cash payment" will be charged at cost price *plus* a suitable percentage to cover all charges in connection with their storage and issue

4 The Mathematical Instrument Office cannot undertake the supply or repair of any description of electrical or telegraphic instrument nor does it issue type, stationery or drawing materials

5 All correspondence and all instruments sent to the Mathematical Instrument Office should be addressed to the officer in charge, Mathematical Instrument Office, 15, Wood Street, Calcutta Telegrams should be addressed to "Surveys, Inst ' Calcutta

6 All indents for instruments should be submitted on the annexed form O 38, and every indent for instruments required on "book transfer must be duly approved and countersigned, in accordance with the instructions printed on the back of the form, before the indent can be complied with An indent sent by telegram should be subsequently confirmed by the submission by post of the usual countersigned indent, with a note on the form intimating that the instruments have already been indented for by telegram

7 The nomenclature and cost of the different instruments, etc generally kept in stock, are given in a price list which can be obtained *gratis* on application from the Mathematical Instrument Office The lower prices are those of instruments which although thoroughly serviceable, are not new An indenting officer should enter the approximate price of each description of instrument required in the column of the indent allotted for that purpose so as to enable the officer who countersigns and finally passes the indent to know the probable expense it involves and also to guide the Mathematical Instrument Office in selecting instruments to meet the demand

8 In order to prevent misunderstandings, indenting officers should invariably state, *on their indents* the size and class of the instrument required, and when ordering a scale, particular care should be taken to note its length, how divided and the purpose for which it is required

9 All instruments returned for repair or adjustment should be despatched *freight prepaid* and at the same time, under separate cover a requisition for repairs should be sent on the annexed form O 38a

10 Indents should be submitted as early as possible to enable the office to make arrangements to meet the demand in case the articles are not in stock and all instruments requiring repairs should be forwarded to the Mathematical Instrument Office *as soon as* they are available It is particularly requested that when a large supply of instruments is likely to be wanted for railway surveys or other large projects the Mathematical Instrument Office should receive as long prior notice as possible of the probable number and description of articles required

11 Indents and requisitions "for repairs' are *not* required in *duplicate* The forms can be obtained on application from the Mathematical Instrument Office

12 The mode of transit and address to which instruments are to be consigned by the Mathematical Instrument Office as well as the address to which correspondence regarding the case is to be sent must invariably be specified in full on the indent or requisition form when instruments are to be despatched by post the nam of the Post Office as well as of the district in which it is situated, should be given and when by railway the nearest railway station should be distinctly stated The forms should not be accompanied by forwarding letters unless more explanation is necessary than can be given on the face of the forms

13 When issuing instruments, which are required on book transfer or despatching them after repair the Mathematical Instrument Office sends an 'invoice in *triplicate* showing the amount due one copy should be signed and returned without delay as it is required for submission with the monthly accounts of the Mathematical Instrument Office, for adjustment by the Comptroller, India Treasuries the other copies should be dealt with as laid down in article 96 volume I, Civil Account Code In the case of instruments issued or repaired on cash payment *prepayment* is necessary and whenever it is possible, they, or the railway receipt for them will be sent by V P P

14 All Government instruments, when no longer required should be at once despatched to the Mathematical Instrument Office *freight prepaid* A list of the instruments returned as no longer required should at the same time be forwarded by post to that Office It is particularly requested that surplus instruments may not be retained in any Government Office as they only deteriorate and become obsolete while if despatched as soon as they are no longer required to the Mathematical Instrument Office they can be overhauled put into serviceable condition and made available for issue to other officers requiring them The Mathematical Instrument Office is, as a rule, unable to receive instruments as 'no longer required" from Departments and officers who are not entitled to deal by means of book transfer and it is essential before sending such to that Office to enquire if it will be convenient to receive them

15 When Government instruments are received by the Mathematical Instrument Office as "no longer required ' they are there valued according to their condition and a valuation statement" is then sent to the officer returning them the amount of this valuation is credited to his department or office in the monthly accounts of the Mathematical Instrument Office, for adjustment by ' book transfer through the Comptroller India Treasuries

16 When an officer considers that Government instruments are unserviceable and that their transit charges may nearly equal or exceed their actual value as material, a survey should be held on them by a committee of Government Officers whose report should be forwarded to the Officer in charge, Mathematical Instrument Office who will issue instructions as to which of the instruments should be forwarded to that Office and which should be sold

by auction locally or destroyed Unserviceable chains, staves, tapes etc are seldom worth their transit charges

17 As indents, requisitions "for repairs and lists of instruments "no longer required ' are dealt with in separate sections in the Mathematical Instrument Office, they should be kept *quite distinct* and should not be mixed up on the same form or list In all cases reference should be made to any previous correspondence on the subject dealt with and when instruments are forwarded to the Mathematical Instrument Office, it should be clearly stated whether they are 'for repairs or no longer required

18 The carriage of instruments is *not* paid by the Mathematical Instrument Office, consequently all consignments sent to it must be *prepaid* by the officer sending them and the freight on those despatched by that Office must be paid by the officers receiving them Incidental charges for packing cases, etc are included in the "invoices or ' bills Owing to the very rough treatment which boxes etc often receive in transit particular attention is drawn to the importance of packing all instruments with great care

19 The accounts kept by the Mathematical Instrument Office do not permit of 'loans or exchanges and instruments cannot be sent "on approval' When instruments are required on Government Service for a limited time, however short, two distinct "book transfer transactions are necessary the instruments must be properly indented for and, when finished with they must be returned as ' no longer required '

20 In all dealings with the Mathematical Instrument Office the official forms in use in that Office, which are supplied *gratis* must be used The Office is conducted under Civil rules and all references to Army Regulations Equipment Tables, etc, should therefore invariably be supplemented by a clear statement of what is required

The following are the conditions of sale —

1 The opium will be sold for exportation by sea only and no certificate will be granted except to cover such export

2 The opium will be ordinarily offered for sale at an upset price of Rs 800 per chest and sold to the highest bidder above that price except under the circumstances for which provision is made by clause 13 of these conditions of sale The bids must advance by Rs 5 at a time

3 The sale shall commence at the hour of 11 A M of the day fixed by previous notification, and shall not be continued after the hour of 5 P M but if at that hour any of the lots advertised for sale shall remain unsold, the sale may at the discretion of Board of Revenue, be resumed on the next day following not being Sunday or a public holiday) at the hour of 11 A M, and so on until the whole of the remaining lots are disposed of, or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale

4 Each lot shall contain five chests

5 A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P M, in the after noon of the fifth day after the sale, provided it does not fall on a Saturday, if it falls on a Saturday, the said notes must be redeemed by 1 30 P M, or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re sale shall be borne and paid by the defaulter whilst any profit accruing from such re sale shall be forfeited to Government

DEPOSIT

When the amount bid is less than Rs 1,200 per chest Rs 200 per chest
On bids of Rs. 1 200 and upwards, but less than Rs. 1 600 per chest Rs 300 per chest
On bids of Rs. 1 600 and upwards but less than Rs. 2 000 per chest Rs 400 per chest.
And so on Rs 100 being added to the deposit for every bid additional to the extent of Rs. 400

6 The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re sale or not

7 The Promissory Notes taken on the day of sale under the fifth condition if remaining unredeemed at 3 30 P M of the fifth day following the day of sale or 1 30 P M, if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit

8 No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re sale as provided for in clauses No 5 and No 6

9 The opium advertised for sale shall be paid for not later than by 3-30 P M of the fifteenth day from the day of sale, provided it does not fall on a Saturday, if it falls on a Saturday, the opium must be paid for by 1 30 P M, and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re sale and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited

10 Purchasers taking out certificates or orders for the delivery of opium after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order, and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order

11 No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale book, or his authorized agent The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order

12 The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions

13 With a view to prevent fictitious biddings designed to obstruct the sale, it is here by notified that the officer of Government superintending the sale shall be competent, at any time during the sale to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price diminishing the same gradually by Rs 5 at a time until a bid is obtained, and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs 800 specified in the second of these conditions,

14 The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty five

15 In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal

16 The following papers will be exhibited for inspection on the day of sale or may be seen previously to that date by personal application at the Office of the Board of Revenue —

No 1, Certificate of the opium advertised for sale,

No 2, Report of the examination of such opium

17 The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1904 1905, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes and to have the due proportion of opium put into each cake An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta may be seen on personal application at the Office of the Board of Revenue

18 Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will as heretofore, be furnished to them on personal application at the office of the Board of Revenue But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium or adulteration of the drug which may be preferred on reference to chests after the sale and delivery of the opium for shipment

GENERAL

4 All the accounts and registers of the Joint Committee shall be kept in English All books of account and registers shall be substantially bound and paged before being brought into use and no accounts shall be prepared on loose sheets of paper or in loosely bound volumes

5 All corrections and alterations in accounts shall be neatly made in red ink and attested by the initials of the President All corrections and alterations in a voucher shall be attested by the payee *Erasures shall on no account be permitted in registers statements vouchers or accounts of any description*

6 After the budget estimates for the year or supplementary estimates have been sanctioned the Joint Committee acting in the exercise of the powers conferred on them by section 52 (*e*) of the Act, or the rules made under the said section of the Act may from time to time by a general or special Resolution authorise the President or other executive officer of the Committee to expend any sum or a part of any sum provided in such estimates, for the purpose to which it has been therein assigned

7 No expenditure shall be incurred for which provision has not been made in the budget estimate for the year or in a supplementary budget estimate and which has not been duly sanctioned by the Joint Committee, or by the President or other executive officer of the Committee acting in exercise of the powers conferred on him by the rules made under the Act

8 The President shall cause to be kept a register of establishment in Form No X showing, in respect of all establishment whatsoever employed by the Joint Committee, the particulars specified in the form A separate page or section shall be allotted to each class of establishment All changes made by competent authority from time to time in the numbers,

nomenclature or salaries of the establishment shall be immediately entered in the register with the number and date of the orders authorizing the change A space should be left under each name for the entry of alterations, and a fresh corrected list should be written up annually or as often as required No entries regarding officiating incumbents, or grant of leave, should be made in this register

9 At the close of every year the President of the Joint Committee shall submit to the Commissioner of the Division a list of those records of the Joint-Committee's office which may properly be destroyed In giving sanction to the destruction of such records, the Commissioner shall be guided by the general rules issued by Government from time to time on this behalf

LOSS OF MONEY BY EMBEZZLEMENT, THEFT OR OTHERWISE

10 Whenever any loss of money by embezzlement, theft or otherwise is discovered, the fact shall be promptly reported by the President of the Joint Committee to the Accountant General, Bengal, and to the Commissioner of the Division through the District Magistrate When the matter has been fully enquired into, he shall submit a further and complete report showing the total sum of money lost the manner in which the money was lost and the steps taken to recover the amount and punish the offenders, if any No money lost by defalcation, theft or otherwise shall be written off from the accounts except with the sanction of the Commissioner of the division When the amount of the loss exceeds Rs 500, or when the loss is due to any defect in the system of accounts, collection, etc, the sanction of Government is necessary

BUDGET ESTIMATE

11 On or before the 1st September each year the Joint Committee shall, in consultation with the Inspector of Schools, prepare a budget estimate, showing the probable receipts and expenditure of the institution under its charge for the ensuing official year and shall forward copies of the same to the Magistrate through the Municipality and the District Board concerned and one copy to the Director of Public Instruction also The Magistrate and the Director of Public Instruction shall forward the estimates to the Commissioner of the Division with their remarks on or before the 1st October Copies of the estimates, as sanctioned by the Commissioner, shall be forwarded to the Joint Committee the District Board and the Municipality, through the Magistrate

NOTE.—At the preliminary stage the Inspector shall act as an adviser and after the budget is finally adopted by the Joint Committee there is something in it not approved by him he may represent matter to the District Board and if his views are not accepted he may refer matters to the Commissioner who shall settle the matter in consultation with the Director of Public Instruction

12 The procedure laid down in the last preceding rule shall be observed in every case where the Joint Committee may find it necessary to amend the budget estimate at any time after it has been sanctioned

13 In preparing the budget estimates the Joint Committee shall show on the receipt side the contributions by the Municipality and the District Board and the receipts of the institution from fees endowments and other sources, and on the payment side the establishment contingent and other charges which have been sanctioned by competent authority The budget estimate shall be supplemented by a statement giving details of the estimated receipts from school fees and other sources and of the establishments and works provided for on the expenditure side

TRANSACTIONS WITH THE TREASURY

14 The funds of the Committee shall be lodged in the Government Treasury and placed to the credit of a Personal Deposit Account to be opened in the official name of the President of the Joint Committee

15 Remittances to the Treasury should in all cases be accompanied by chalans in duplicate (Form No II) The first part shall be retained by the Treasury, and the counter foil duly receipted by the Treasury officials, should be returned to the Committee's office for record

16 All moneys remitted to the Treasury to credit of the Joint-Committee and all payments made by the Treasury on cheques or otherwise on account of the Joint Committee shall be entered in a pass book the pass book shall remain in the custody of the President, and it shall be sent to the Treasury on the 10th and also on the last working day of every month and on any other day on which the Joint Committee may require the posting to be done On receipt of the pass book by the Treasury officials, the receipts and payments up to date and credits referred to in rule 21, shall be entered therein, and (when the book is received on the last working day of the month) the accounts shall be balanced and signed by the Treasury Officer the amount being entered in words as well as figures The book shall then be returned to the office of the Joint Committee, as soon as the entries prescribed in this rule have been made in it, *i e*, on the day of receipt or the next open day at the latest

17 The pass book will be supplied by the Treasury It is not a Joint Committee Fund account-book but is simply a copy of the account kept in the Treasury of the money paid into the credit of, and disbursed on account of, the Joint-Committee and must

therefore always be written up *only by the Government Treasury Department* by whom the original account is kept.

18 No entries or marks shall under any circumstances be made in the pass-book by any one connected with the Joint-Committee's office

19 The President shall examine this pass-book from time to time, and shall immediately call the attention of the Treasury Officer to any discrepancy that may appear between the credits and debits shown in the pass book and those shown in the accounts of the Joint Committee's office

20 The form of the pass book is as follows —

DR *The Treasury or Bank of* *in Account Current*
with the Joint Committee's Fund CR

1	2	3	4	5			6	7	8	9	10

				Rs.	A	P					Rs.	A	P

21 When a grant is made to the Joint Committee's Fund from Provincial revenues, either as a general grant-in aid, or for expenditure on any specific object, the Accountant-General shall, in the first case, at the beginning of the year, or in the second case, on receipt of orders, instruct the Treasury Officer to credit the amount of the grant to the Joint-Committee's Fund The credit shall be made by book transfer, no bill or cheque shall be drawn, and no money shall be paid out of the Treasury

PAYMENT OF CLAIMS

22 For the payment of petty charges the President shall hold a permanent advance of such amount as the Joint-Committee may fix from time to time, provided that, without the sanction of the Commissioner, the Joint Committee shall not fix the amount of the permanent advance at more than Rs 50

23 The permanent advance shall be recouped as often as may be necessary in the manner prescribed in rules 51 and 52 below

24 Payments of not more than Rs 20 shall be made from the permanent advance provided that no charge on account of the salary of any employé of the Joint Committee shall be made otherwise than as prescribed in rules 25 and 30

25 All payments exceeding Rs 20 shall be made by cheque, unless there are special circumstances rendering payment in cash desirable provided that all payments of sums above Rs 10 on account of salaries of employés of the Joint Committee shall be made by cheque

26 Cheque books will be supplied by the Treasury Officer only, and no other form shall be used The cheque books and the counterfoils of used cheques shall be kept in the custody of the President

27 On receipt of a cheque book from the Treasury, the officer to whom the duty of signing cheques is allotted shall count the cheques, and shall record on the back of the cheque-book that "this cheque book contains forms"

28 Cheques for sums not exceeding Rs 100 shall be signed by the President Cheques for sums exceeding Rs 100 shall be signed by the President and the Vice President or Secretary or, in the absence of one or other of them by the officer present and a member of the Joint Committee

29 No cheque shall be signed unless required for immediate delivery to the person to whom the money is to be paid, nor until the bill which it will discharge has been presented in a complete form examined and passed for payment in accordance with rules 36 and 38

30 Every cheque shall be drawn in English in favour of the person to whom the money is actually due Payment shall not be made to any other person, except on production of a written authority from the creditor to receive it on his behalf The rule does not apply to cheques issued for a sum of money distributable as pay or wages among a number of Joint-Committee Fund employés, or for recouping the permanent advance Whenever money is paid to persons who are illiterate and unable to sign their names in acknowledgment, the payee shall make his mark the fact of the payment shall be certified to by the officer who pays, and by a witness of respectability

31 The amount of every cheque shall be written in words as well as in figures, both on the cheque itself and on the counterfoil, and the counterfoil shall be initialled by the person or persons who sign the cheque The word "only" shall always be inserted after the amount written in words in the body of the cheque

32 Every cheque drawn for a sum, whether exceeding Rs. 20 or not, shall bear a receipt stamp of the value of one anna, and such receipt stamp shall be affixed before the cheque is signed

33 When a signed cheque is cancelled, it shall be enfaced or stamped "cancelled" by the President, and shall be destroyed and the necessary adjustment shall be made in the cash book.

34 The fact of cancellation shall be noted in red ink under the initials of the drawer of the cheque upon the counterfoil and also across the passing order which has been enfaced upon the voucher

35 Cheques are current for three months only After the expiration of that period, payment will be refused at the Treasury, and the person in whose favour the cheque was drawn will, therefore, have to bring it back to be re dated No fresh cheque should be issued, the lapsed cheque shall simply be redated and the alteration initialled by the President or official whose duty it would be to sign the cheque under rule A note of the fact of re-dating shall be entered in the cash book against the original transaction The alteration will in no way affect the accounts, and no further entries shall be made.

36 Every bill or other claim for payment from the Joint-Committee Fund shall be presented in the first instance to the Head of the Educational Institution who shall check and examine it, and if it be found correct and in order, shall submit it for orders to the President If payment of the bill so presented is to be made, an order for the payment shall be endorsed upon it The order for payment shall run as follows —"Pay Rupees only (Rs),"the amount being written in words as well as in figures, and shall be signed by the President

37 If payment is to be made from the permanent advance the procedure laid down in rules 49 to 53 shall be adopted

38 If payment is to be made by cheque, the President shall cause the bill to be endorsed with the words "paid by cheque No ," and shall then sign the endorsement, and cause the cheque to be drawn out, signed and issued. The payee or person taking delivery of the cheque on his behalf shall give a dated acknowledgment of the receipt thereof on that bill Whenever necessary and convenient to the Treasury cheques issued from the Joint Committee's office may be enfaced at the district treasury for payment at a sub treasury

39 When any payment is made either by cheque or in cash from the permanent advance it shall be immediately entered in the accounts of the Joint-Committee In the former case it shall be entered in the cash book (Form No III) In the latter case, it shall be entered in the permanent advance account (Form No VII)

40 Every payment made, either in cash or by cheque, shall be covered by a receipt, stamped if necessary, signed by the person to whom the money is due and to whom it has actually been paid A receipt signed by another person for the creditor, or with a stamp, is invalid

41 Bills and vouchers that have been paid by cheque shall be numbered consecutively for the year in order of payment, and shall be pasted in a guard book But sub vouchers which have been paid in cash out of the permanent advance shall be separately filed, together with the recoupment voucher covering them A memorandum instead of this voucher shall be pasted into the guard book mentioned above, viz,—

MEMORANDUM

Voucher No , dated , for Rs. , in recoupment of the President's permanent advance, will be found in the separate file

CASH BOOK

42 The cash book shall be in form No III and shall show on the receipt side all sums realised in cash as soon as they are received Sums credited in the pass book direct should be similarly shown as soon as intimation is received either direct or through the pass book Expenditure shall be entered day by day as cheques are issued (*vide* rule 39 of these rules) All sums received in cash must be remitted to the Treasury at once, or within three days at the latest

43 The cash book shall be closed and balanced at the end of every month and shall be signed by the President. The difference between the closing balance of the cash book and that in the Treasury arising from uncashed cheques or short credits shall be reconciled in the following manner -

	Rs
Balance as per cash book	
Add—Uncashed cheques	
Deduct—Short credits	
Balance as per pass-book	

PERMANENT ADVANCE

44 On first receiving or taking charge of the permanent advance, the President shall sign and file an acknowledgment in these terms —"I acknowledge to have in my possession a permanent advance of Rupees (Rs), which sum is due from me to the Joint Committee and I am personally accountable for the amount"

45 A similar acknowledgment shall also be given by the President on the first working day of each year

46 The permanent advance when first drawn shall be charged in the cash book to the head Advances,' and shall be debited to the President's account in the advance ledger

47 There will be no further operations upon the ledger account until the advance is finally repaid It need not be repaid at the end of each year If the amount originally fixed for the permanent advance is subsequently increased or decreased by the Joint Committee the original advance shall be repaid and a fresh advance drawn

48 The President shall make payments from his permanent advance from time to time as may be required and for each payment he shall obtain and hold a bill receipted by the payee, or, in the case of petty office expenses a written detailed statement of the sum spent

49 These bills or statements shall be numbered consecutively enfaced or stamped paid in cash,' and entered in the register in Form VII, the classification of the charges being carefully entered in the columns provided for the purpose

50 The permanent advance may be recouped whenever necessary and it must always be recouped on the last working day of the month except when the expenditure falls below Rs 10 for which no cheques can be drawn upon the Treasury

51 The procedure of recoupment is as follows —The President shall compare the sub vouchers with the entries in the permanent advance account he shall deface them by stamping them "cancelled," so that they cannot be used again He shall total and initial the column "Amount of sub voucher' in the permanent advance account and also the amounts in the classification columns, the cross total of which should agree with the total of the column "Amount of sub-voucher and shall rule a red ink line across the page immediately above which in the last two columns, the number, date and amount of the voucher for recoupment shall be shown

52 The voucher for recoupment shall be drawn out in Form No VIII and it shall be enfaced with the usual payment order The President shall draw out a cheque in his own favour for the amount and sign the certificate in the voucher and the entries in the last two columns of the register

MONTHLY, QUARTERLY AND ANNUAL ACCOUNTS.

53 As soon as possible, after the end of a month the entries on the receipt side of the cash book (Form No III) shall be posted in the register of monthly receipts (Form No IV) against the heads concerned In cases in which there is more than one item classifiable under the same head, the total only should be posted against the head in the body of the accounts, the details being posted at foot in the column for the month concerned All the payments entered in the cash book should be posted in the monthly register of payments (Form No V) For this purpose the classification of the charges should be noted in red ink on each voucher The vouchers should then all be arranged in the order of the heads in the monthly accounts If there are more than one voucher under any heads the several items with the numbers of the vouchers should be posted at foot of the monthly account in the column for the month concerned, and the total only posted against the head in the body of the account the two entries being connected with each other by indicative letters In such cases the numbers of the vouchers should not be posted on the body, but only against the details at foot. The monthly accounts of receipts and payments should then be totalled and the balances reconciled

54 An extract from these accounts, showing the figures for the month and the progressive totals to the end of it, should be forwarded to the Accountant General Bengal, not later than the 15th of the month following that to which the accounts relate

55 The annual account of the school should be compiled from the monthly accounts and subsidiary registers in the form prescribed by the Educational rules, and copies of this account should be forwarded to the Accountant General, the Director of Public Instruction, and the District Board and Municipal Office

ADVANCES AND DEPOSITS

56 All sums advanced to officers or employés of the Joint Committee or to contractors or other persons whether as permanent advances or otherwise, shall be charged in the accounts at once to the head "Advances' and be entered at the same time in the register of advances in Form No IX in which recoveries or adjustments of the advances should also be entered as soon as they are effected

AUDIT

57 The accounts of the Joint-Committee's Fund shall be examined and audited by the Examiner of Local Accounts in Bengal as far as possible not less often than once in twelve months.

58 In auditing the accounts the Examiner shall see that they have been kept and are presented in proper form, that the particular items of receipt and expenditure are stated in sufficient detail and that the payments are supported by adequate vouchers and authority He shall examine whether all sums received or which ought to have been received, are brought into account, and also whether the expenditure is in all cases such as might lawfully be made He shall also reduce such payments and charges as are exorbitant, and shall surcharge moneys not duly accounted for or lost by negligence upon the person who ought to account for the same, or whose negligence or improper conduct has caused the loss, and shall disallow and strike out such payments as are not authorized by law or competent authority

59 Copies of the reports of such examination shall be forwarded by the Accountant General, Bengal, to the President of the Joint Committee and the Commissioner of the Division The President shall be bound to remedy any defects or irregularities that may be pointed out by the Accountant General or the Examiner and within three months of the date of the receipt of the report he shall submit a statement, giving particulars of the action taken thereon to the Commissioner, who shall forward the same with his remarks to the Accountant General

RECORD OF SERVICE

60 A service book in Form No XII printed in English and the vernacular shall be supplied at his own cost to every employe holding a substantive appointment on the permanent establishment of a Joint Committee It shall be kept in custody of the President whose signature as well as that of the employe on the first page shall be attested every five years

The service book is a contemporary record of the employe's official life including leave of every description, every period of suspension from employment, and every other interruption of service, with full details of its duration Every entry relating thereto shall be written across the page and attested by the President or Vice President or the Secretary

61 The President or Vice President is primarily responsible that every necessary entry is made especially in regard to leave or suspension but it is also the duty of each employé to remind the President, Vice President or Secretary, when any entry is necessary, and to see that his own service book is properly written up and attested It should be carefully explained to each employé that, unless he does so there may be a difficulty hereafter in verifying his service when his claim to pension shall come to be investigated and considered Service books shall be introduced and kept up, whether rules for the grant of pensions and gratuities have been framed or not

At the time of preparing the pay bill for March in each year a detailed statement of the permanent pensionable establishment existing on the 1st April should be prepared in Form No XIII and transmitted to the Accountant-General direct not later than the 15th April In preparing the statement the following instructions should be carefully observed —

(*a*) The name designation and pay of every officer clerk or menial servant holding a permanent appointment whether on duty or absent on leave or deputation or under suspension should be distinctly shown

(*b*) The date of birth of appointment to present post and of promotion to present pay of each person should be entered in the appropriate columns of the statement the date of birth by Christian era should be given and if the exact date is not known the approximate date or year should be stated

(*c*) The name of any person acting in an appointment as well as the acting allowance paid to him should be shown in the column Name of incumbent beneath the name of the absentee for whom he is officiating

(*d*) If the acting incumbent holds a permanent appointment upon another establishment the fact should be stated

(*e*) A detailed statement in Form XIIIA should be given at foot of the original return, Form XIII showing new names of officers which are not found in the return of the previous year and when these new names include those of persons who have entered the service of the Joint Committee for the first time their age and health certificates should be attached to the statement Columns are also provided in Form XIIIA for information required in regard to the names of officers which appeared in Form XIII of the previous year but are now omitted as also regarding officers who have been on leave other than privilege leave or under suspension during the previous year In the case of any who have been under suspension a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension

(*f*) If any person on the establishment is a Government pensioner or is not the servant of the Joint Committee solely the fact should be noted in the statement If he be an officer transferred from the pensionable service of Government for whose pension contribution is paid a note should be entered against his name to the effect "contribution paid to Government for pension

When completed in accordance with the preceding instructions, the statement should be carefully checked with the service books, as it will be the authority by which hereafter pension claims will be tested by the Accountant General

NOTICES TO MARINERS

THE following Notices are published for general information

W A INGLIS,
Secretary, Marine Department

CALCUTTA, *the 25th November 1905*

BAY OF BENGAL—ORISSA COAST

Balasore anchoring buoy adrift

No 450 (first publication)—A telegraphic communication has been received from the Port Officer, Cuttack and Balasore ports, stating that the Balasore anchoring buoy has gone adrift, and will be replaced as soon as possible

BAY OF BENGAL—MADRAS COAST

Port of Madras—Date of exhibition of South Breakwater end light

No 451 (first publication)—The Deputy Conservator Madras, has given notice, dated the 9th October 1905, informing Masters of vessels, Pilots and others that, on and after 1st January 1906, the present red fixed light at the South Breakwater end will be exhibited at an elevation of 45 feet instead of 37 feet above high water, and visible in clear weather 8 miles instead of 6 miles all round the compass

AUSTRALIA, SOUTH—GULF OF ST VINCENT

A cheese shaped buoy placed on the east side

No 452 (first publication)—The President of the Marine Board Port Adelaide, has given notice (No 26 of 1905), that a cheese-shaped buoy, painted red, has been placed on the east side of St Vincent Gulf to mark the supposed position of a rock which has been reported, having on it 5 feet at L W S, with 9 feet all around it

The position of the buoy is as follows —

Port Parham houses bearing E by S, distant three miles, in 9 feet at L W S tide

Approximate lat, 34° 26′ 10″ S long, 138° 19′ 10″ E

This affects Admiralty Chart No 2389B

CEYLON—SOUTH COAST

Gindurah Rock—The buoy marking its position has been replaced

No 453 (first publication)—With reference to Notice to Mariners No 375, dated the 23rd September 1905 issued by this Office, the Master Attendant, Galle, has given notice, dated 3rd November 1905, that the Red Beacon Buoy marking the position of the Gindurah Rock has been replaced It is laid in 18½ fathoms water, coarse sand and shell, about 8½ cables S

by W from the rock, with Edward's Pillar midway between Galle Lighthouse and Elephant Rock and the Hayoock nearly over the Gull Rock

The attention of Mariners is called to the remark in page 84 of West Coast of Hindostan Pilot

Caution—Too much reliance must not be placed on the buoys marking the outer dangers near Point de Galle, as they are liable to break adrift

CHINA SEA—FLAT ISLAND

Reef to the westward

No 458 (first publication)—The following Notice to Mariners (No 1082 of 1905) issued by the British Admiralty is republished —

Information has been received through the Board of Trade that the British barque *West York* was, on July 17th 1905 wrecked on a reef in the China sea, situated about 41 miles to the westward of Flat island in approximately lat 11° 6 N, long 115° 1 E

No reliance can be placed on this position, as it is entirely dependent on dead reckoning, no observations having been obtained for seven days

This Notice affects the following Admiralty Chart – China sea, No 2660b Also, China Sea Directory, Vol II, 1899, page 242

JAPAN—KURIL ISLANDS—SHIMUSHU

Shiro iwa (Kokskar rock)—Shoal in the vicinity

No 459 (first publication)—The British Admiralty has given notice (No 1095 of 1905) of the existence of a shoal, which breaks in the approach to Paramushiru strait situated in a position from which Shiro iwa (Kokskar rock) bears S 30° W, distant about 4½ miles. It has been placed on the Chart as a rock awash in this position

The rock awash, situated 2 miles N 20° E from Shiro iwa, is apparently connected with Shiro iwa, as breakers have been observed extending about one mile to the north-eastward from the latter rock

Approximate position, Shiro iwa, lat 50° 30½′ N, long 156° 28½ E

(*Variation 1° Westerly in 1905*)

This Notice affects the following Admiralty Charts The Kuril islands, No 2405 plan of Kuril strait on Chart No 2128 Also, Sailing Directions for Japan, &c, 1904, page 767

CHINA SEA

Flat, Nanshan, and West York islands—Positions and particulars given

No 460 first publication)—The following Notice to Mariners (No 1105 of 1905) issued by the British Admiralty is republished, in continuation of this office No 458, dated the 25th November 1905

Further information, dated 24th August 1905, has been received through the Board of Trade that Mr W D Prideaux commanding U S naval collier *Nanshan*, sent from Manila to relieve the crew of the British barque *West York* wrecked on a reef south eastward from North Danger reef in the China sea, makes the following report respecting some islands and dangers between North Danger reef and Palawan —

(*a*) Flat island was found to be a flat low sandy island about 250 yards across A reef extends in an easterly direction from it for a distance of 2 to 3 miles, and several discoloured patches were observed to the N N Eastward The position of the island was ascertained to be lat 10° 48 15′ N, long 115° 50 30′ E or about 16 miles to the south eastward of the position shown on the Charts The position formerly given, lat 11° 3′ N, long 115° 42 E, was passed over without any sign of land being observed

(*b*) Nanshan island An island (now named Nanshan) covered with small trees, and about 600 yards across, was observed to be situated about 6 miles S 12° W from Flat island, in approximately lat 10° 42′ 30″ N, long 115° 49′ 30″ E

(*c*) West York island This island is about one mile long and half a mile broad covered with grass and trees, some of which are cocoanut palms, it is fringed with a reef which extends from it a quarter of a mile on the eastern side to fully 2 miles on the northern side, on the latter reef the ship *West York* was wrecked An anchorage was found in 14 fathoms, coral with the north point of the island bearing S 20° W, distant 2½ miles Signs of former Chinese habitation were found, and it is apparently visited every year by fishermen from Hainau for the purpose of collecting Trapang, &c The position of the island was ascertained to be lat 11° 5 45″ N, long 115° 1 30″ E

(*Variation 1 Easterly in 1905*)

This Notice affects the following Admiralty Charts —China sea, Nos 1868 and 2660b Also China Sea Directory, vol II, 1899, page 242

PACIFIC OCEAN —New Guinea, north east coast

Maty and Durour islands—positions of

No 461 (first publication) —The British Admiralty has given notice (No 1107 of 1905) that the Master of the S S *African Monarch* reports that, during the passage of his vessel from Newcastle, N S W to Manila, he passed between Maty and Durour islands on the north east coast of New Guinea at a distance of 7½ miles from Maty island, and found the position of that island practically correct The remark on the Chart to the effect that its position was 8 miles to the eastward has therefore been erased

The approximate position of Durour island was ascertained to be N 30° E, distant 19 miles from Maty island, which places it in lat 1° 29′ S, long 142° 57 E, or about 16 miles to the westward of its present position on the Chart

This Notice affects the following Admiralty Charts —Pacific Ocean, No 780 Australia, northern portion, No 2759a North east coast of New Guinea, No 2766 Also, Pacific Islands vol I, 1900, page 414

(Recommended track)		

BAY OF BENGAL—Chittagong coast

South Patches—A red conical buoy placed

No 438 (second publication) —The Port Officer, Chittagong, has given notice, dated 7th November, that a red conical buoy with red cage has been placed on the south west edge of the South Patches in 6 fathoms

Approximate position, 21° 30 N 91 39 E

The buoy should be seen six miles in clear weather

BAY OF BENGAL—Burma coast

Baragua flats—Floating light-vessel temporarily replaced

No 439 (second publication) —A telegraphic communication has been received from the Principal Port Officer, Rangoon stating that the floating light vessel at the Baragua flats will be temporarily replaced on or about the 25th November 1905 by the *Martaban*, which will show the prescribed light for the station

PACIFIC OCEAN—Philippines—Kalamion or Kulion island

Port Kulion—Beacons established

No 440 (second publication) —The British Admiralty has given notice (No 1046 of 1905) that three beacons have been erected to mark reefs situated in or near port Kulion Kalamion or Kulion island

Each beacon consists of a concrete base surmounted by a post carrying two square boards one above the other and at right angles The boards are painted white with a black centre, the upper one being 15 feet above high water They are situated as follows —

(*a*) On the centre of the reef lying in the approach to port Kulion, with the summit of Inlulukit island bearing N 30° W, distant one mile and fort Kulion light S 85° W

(*b*) On the northern point of the reef on the eastern side of the entrance to the harbour, with fort Kulion light bearing N 68 W, distant $2\frac{5}{10}$ cables

(*c*) On the north eastern edge of the reef extending from the western entrance point to the harbour, with Kulion light bearing S 35° W distant 150 yards

Approximate position, fort Kulion lat 11° 51 N, long 120° 01 E

(*Variation 1° Easterly in 1905*)

This Notice affects the following Admiralty Chart —Port Kulion on sheet No 944 Also China Sea Directory, vol II, 1899, page 294

EASTERN ARCHIPELAGO—Java—Sunda Strait

Arnemuiden bank—Beacon established

No 441 (second publication) —The British Admiralty has given notice (No 1048 of 1905) that an iron screw pile beacon surmounted by a black cone has been erected on the western side of Arnemuiden bank, in the northern approach to Sunda strait

Approximate position, lat 5° 12¾ S, long 106° 44½ E

The mean pressure, temperature, &c are deduced from the traces of the Barograph and Thermograph and from eye observations

The maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides and are suspended four feet above the ground

The barometer readings are corrected to those of the standard Newman's No 88, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the traces of a Beckley's anemograph

The mouth of the rain gauge is one foot above the ground Rainfall reported on any day is for 24 hours preceding 8 A M of that day

† Audited up to week ended 23rd September 1905

‡ Increase in mileage is due to the opening of Lalgola to Ranaghat Murshidabad Branch

N.B.—The increase in the number of passengers carried and that in the weight of minerals carried in the last named week is chiefly in jute and tea traffic and also the amalgamation of B. C. Railway has contributed to the increase in minerals

The following are the conditions of sale —

1 The opium will be sold for exportation by sea only and no certificate will be granted except to cover such export

2 The opium will be ordinarily offered for sale at an upset price of Rs 800 per chest and sold to the highest bidder above that price except under the circumstances for which provision is made by clause 13 of these conditions of sale The bids must advance by Rs 5 at a time

3 The sale shall commence at the hour of 11 A M of the day fixed by previous notification, and shall not be continued after the hour of 3 P M but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of

Board of Revenue be resumed on the next day following (not being Sunday or a public holiday) at the hour of 11 A M and so on until the whole of the remaining lots are disposed of or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale

4 Each lot shall contain five chests

5 A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale room and before the lot is registered in the sale-book and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3 30 P M in the after noon of the fifth day after the sale provided it does not fall on a Saturday if it falls on a Saturday the said notes must be redeemed by 1 30 P M, or, on the other hand, failing such redemption by the time aforesaid then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in shall be re sold at such time or times and under such conditions of re sale as the Board of Revenue shall see fit and all losses and expenses whatsoever attending such re sale shall be borne and paid by the defaulter whilst any profit accruing from such re sale shall be forfeited to Government

DEPOSIT

When the amount bid is less than Rs 1 200 per chest (Rs 60 per chest On bids for Rs 1 200 and upwards but less than Rs 1 600 per chest Rs 300 per chest On bids for Rs 1 600 and upwards but less than Rs 2 000 per chest Rs 400 per chest

And in addition to the deposit if any bid added to the extent of Rs 400

6 The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned and the amount thereof shall not go or be credited in reduction of any loss on re sale or expenses thereby incurred, but shall be recoverable whether such re sale shall be had or not or whether there shall be a loss on such re sale or not

7 The Promissory Notes taken on the day of sale under the fifth condition if remaining unredeemed at 3 30 P M of the fifth day following the day of sale or 1 30 P M if the last day falls on a Saturday will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit

8 Notwithstanding, Bank of Bengal receipts, or public securities on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given or to any of the rights of a purchaser thereof or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re sale as provided for in clauses No 5 and No 6

9 The opium advertised for sale shall be paid for not later than by 3 30 P M of the fifteenth day from the day of sale provided it does not fall on a Saturday if it falls on a Saturday the opium must be paid for by 1 30 P M and in case any lots of such opium shall not be so paid for and adjusted then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests shall be forfeited and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re sale and the liability for the loss or difference of price and expenses shall be in addition to and wholly independent of, the amount of the deposit so forfeited

10 Purchasers taking out certificates or orders for the delivery of opium after making full payment as above prescribed shall have the option of naming the number of lots of their purchase which they may desire to be included in each certificate or order and it is to be clearly understood that the certificates or orders so taken out shall be considered final and not afterwards changed to for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order

11 No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale book or his authorized agent The receipt for deposit of public securities will be granted only in the name of such purchaser and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order

12 The officer superintending the sale on the part of the Government is empowered to reject at his discretion the bid of any individual unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipt or Government securities a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions

13 With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price diminishing the same gradually by Rs 5 at a time until a bid is obtained and the first *bona fide* bidder for a lot, after it has been offered

for sale in the mode here described, shall be held and declared to be the purchaser of the said lot and the officer of Government superintending the sale shall also be competent to dispose in the same manner of as many of the subsequent lots as he may think proper provided always that no lot shall be sold below the minimum price of Rs 800 specified in the second of these conditions

14 The purchaser of any lot shall have the option of naming and purchasing in immediate succession at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty five lots provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five

15 In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification or adjustment of the account thereof the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal

16 The following papers will be exhibited for inspection on the day of sale or may be seen previously to that date by personal application at the Office of the Board of Revenue —

No 1 Certificate of the opium advertised for sale

No 2 Report of the examination of such opium

17 The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1904 1905 the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake An account of the weight of the drug when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests indiscriminately taken for the purpose of comparison, from the despatches on arrival at Calcutta may be seen on personal application at the Office of the Board of Revenue

18 Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore be furnished to them on personal application at the office of the Board of Revenue But in accordance with established usage under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight abstraction of opium or adulteration of the drug which may be preferred on reference to chests after the sale and delivery of the opium for shipment

PUBLIC

UNIFORMITY OF TREATMENT IN THE SPELLING AND ARRANGEMENT OF INDIAN PERSONAL NAMES IN OFFICIAL PUBLICATIONS

Nos 3842—3874 dated Calcutta the 30th November 1905

RESOLUTION

THE question of prescribing greater uniformity of treatment in the spelling and arrangement of Indian personal names in official publications has recently received the careful consideration of the Government of India Their action in the matter is the natural sequel of the discussion of somewhat similar questions in the past In 1873 rules were laid down for the transliteration of names of places and lists were prepared which were revised in 1900 A proposal was made as early as 1875 to adopt a systematic spelling of personal names in the Army List, but no steps were taken to carry this out for some years and it was not till 1884 that a hand book by Mr (now Sir) C J Lyall was published under the title 'Guide to the transliteration of Hindu and Muhammadan names in the Bengal Army' Subsequently, a manual of Hindu names peculiar to the Madras Presidency was prepared Burmese names are transliterated according to a special system and need not be referred to here

2 Although the adoption of a uniform system in the case of the names of places has affected to some extent the transliteration of personal names neither this nor the publication of corrected list of names entered in the Army List has been found in practice to be sufficient to secure reasonable uniformity in the spelling of the large number of personal names which are identical or closely similar in form Further anomalies and diversities arise in the process of determining what portions of certain names should be treated as surnames for the purposes of official publications The result has been that the spelling and the arrangement of names in civil lists and histories of services are inconsistent and confusing These defects are reproduced in the India List which is compiled in England from the provincial histories of services As this work deals with the whole of India and is frequently consulted by persons who are not familiar with Indian vernacular names or languages, it must be prepared on uniform principles

3 On these grounds local Governments were invited to consider the advisability of introducing in official publications a closer approach to uniformity both in the matter of spelling and as regards the recognition of certain classes of names as virtually equivalent to surnames Their replies indicated a general consensus of opinion that a uniform system of spelling was both practicable and desirable, and with this view the Government of India were thoroughly in accord The treatment of surnames presented more difficulty, as it was doubtful whether certain appellations should be treated as surnames, and whether in the indices priority should be given to personal names or to surnames In order to obtain material for a decision on the general questions raised, local Governments were asked to prepare a list of all vernacular names in their current civil lists showing the arrangement of each name in full and the system on which it should be shown in the index

4 The complete lists have been received and examined by the Government of India, and it is now possible to issue general orders on the subject The final decision has been greatly facilitated by the careful manner in which the lists have been prepared, especially those sent up by the Governments of Bengal (where the question was considered by a special committee of which the Hon'ble Mr Justice Mukherji was a member), Madras and the United Provinces

5 To take the question of surnames first, it seems to the Government of India that use of these is fully established in Bengal and Assam and in the case of most Hindu names in Madras and Bombay In other parts of India the practice is less clearly defined The generic appellations affixed to individual names differ in origin, being sometimes sectarian or territorial in character and sometimes referring to distinctions of caste or tribe To their treatment as surnames the objection has been taken that they do not form an essential part of an individual's designation and are not invariably used in signatures, while in so far as they denote membership of a religious sect it is argued that they cannot be regarded as distinctive of particular persons Apart, however from the question whether these appellations really represent surnames in the European sense, the Government of India are satisfied that in most provinces their use is frequent enough to justify their treatment as surnames for the purposes of civil lists and similar publications Whether priority should be given to them in indexing depends on local usage Thus in Madras, where almost every Hindu uses a name of this sort, and the names are invariably known, they should be employed as the main entries Where on the other hand as in the case in the United Provinces, they are used less frequently and are not commonly known the personal name should form the principal entry in the index but the caste name or title used should also be indexed, with a cross reference to the personal name

6 The question of spelling is complicated by various linguistic and phonetic difficulties and no single criterion can be entirely relied upon as conclusive There are many cases in which the pronunciation differs from the written form, and the combined lists have shown that the same name may be spelt in half a dozen different ways To prescribe absolute uniformity of spelling for all Hindu names of identical or cognate origin would conflict too sharply with popular usage, but in revising the lists prepared by local Governments it has been found possible to reduce the variant forms in each case to two or three for the whole of India In the case of Muhammadan names which have been less affected by dialectic changes consistent methods of transliteration are clearly appropriate

7 Such are the general principles which the Governor General in Council has decided to adopt in dealing with this intricate question Their application in detail will be explained separately to local Governments in letters dealing with the several lists of vernacular names submitted and so far as the official treatment of all names occurring in such lists is concerned the Government of India think it important that no deviations from the standard form should be admitted In conclusion the Government of India would remind local Governments that the question of securing a reasonable degree of uniformity in the treatment of native personal names is of wider import and larger interest than the mere convenience of persons who have occasion to refer to official lists It is highly desirable on all grounds that incorrect variable and debased spellings should disappear from written usage throughout India in favour of accurate and consistent forms The present orders relate only to a special and limited class of publications but the Government of India hope that local Governments will endeavour to extend the standard forms of spelling now prescribed to all classes of official documents They would be glad also to see the influence of high judicial authorities throughout India exerted in the direction of giving wider effect to the reforms now instituted Native usage in these matters is naturally conservative and there will doubtless be a tendency for private individuals to adhere to some of the inaccurate variants now current, but the success which has attended the standard system of transliteration for place names encourages the Government of India to hope that the example of a system of spelling calculated to preserve the historical character and associations of Indian personal names will in course of time commend itself to the feelings of the people

ORDER.—Ordered that a copy of this Resolution be forwarded to all local Governments and Administrations, all Departments of the Government of India, and offices subordinate to the Home Department, for information and guidance

ORDERED also that the Resolution be published in the *Supplement to the Gazette of India* for general information

QUESTIONS AND ANSWERS

DEVELOPMENT OF INDIGENOUS INDUSTRIES

The Hon'ble MR CHAUDHURI, in the absence of the Hon'ble BABU AMBIKA CHARAN MAZUMDAR, asked —

Is it or is it not a fact that Government is strongly in favour of the development of indigenous industries in this country? If it is, will the Government be pleased to take some action in view of the impetus given by the Swadeshi movement —

(*a*) to develop the weaving industry by introducing and popularising the fly shuttle and other looms through the agency of the various District Boards and Municipalities?

(*b*) to introduce and facilitate the cultivation of cotton through the same agencies or through the Government Khas Mahal Department in each district?

The Hon'ble MR CARLYLE replied —

"Government is in favour of the development of indigenous industries in this Province Whether the Swadeshi movement in Bengal has given any real impetus to the development of indigenous industries it is too early to judge A scheme for the establishment of a school at Serampore for the teaching of improved methods of hand weaving in silk, cotton and wool has been submitted to the Government of India It is anticipated that this scheme, if sanctioned, will give the District Boards and Municipalities an opportunity of showing their interest in the matter It will be seen from the annual resolution regarding the working of District Boards in Bengal of the last three years that everything possible is being done to introduce and popularise the fly shuttle and other looms through the agency of District Boards As regards the cultivation of cotton, this has been dealt with in the reply to another question by the Hon'ble Babu Ambika Charan Mazumdar"

GROWTH OF COTTON IN BENGAL

The Hon'ble MR CHAUDHURI, in the absence of the Hon'ble BABU AMBIKA CHARAN MAZUMDAR, asked —

Will the Government be pleased to inquire whether it is not desirable to start a few model farms in Bengal for the cultivation of cotton? And will the Government be pleased to consider the advisability of supplying either through its Khas Mahal Department in each district or through the District Boards good cotton seeds to *bonâ fide* cultivators who may be anxious to grow the same?

The Hon'ble MR CARLYLE replied —

"In connection with the proposed reorganization of the Agricultural Department, this Government has submitted to the Supreme Government a scheme for the establishment of an experimental farm in each Division of the Province One such farm was to be established every year It is also proposed to establish a number of demonstration or model farms gradually after the experimental farm stations have proved what lessons are likely to be useful to the raiyats The Government of India has generally approved of these suggestions

These experimental and demonstration farms will be for all important crops Cotton at present is of very small importance in the Province In 1904 1905 the area under cotton in Bengal was only 90 thousand acres out of 19 million acres in all India, or only 0 47 per cent of the total It is therefore not proposed to start any experimental or model farms solely for the cultivation of this crop

The improvement of the crop in this Province has, however, engaged the attention of the Agricultural Department for sometime past Attempts are

being made to improve the outturn and quality of the local varieties of cotton by selection of seed in the important cotton growing districts of Saran Muzaffarpur and Singhbhum This was undertaken at the instance of the Government of India Last year, the total cost of the operations came to Rs 2,275 The selected seeds were distributed free to picked cultivators on their agreeing to simply return the same quantity of seed *plus* 25 per cent when the next crop was harvested The improvement of a crop by seed selection, however, is a slow process

Attempts are also being made to introduce superior varieties of cotton from Egypt and America as also from other provinces of India The quantities of seed distributed in 1904 and again in 1905 will appear from the Appendix The seeds were distributed to raiyats in Khas Mahals and Wards' Estates and also to private gentlemen interested in cotton cultivation No definite results have yet been obtained The experiment was a failure last year owing to excessive rains during the monsoon and excessive cold in winter The results of this year's trial have not yet been reported Our conditions, especially rainfall, are probably against us in this attempt It is, however, proposed to continue the experiment, but it may be well to recognise that the question is at the experimental stage, and it is too early to recommend any particular variety or varieties to the ordinary cultivators who can ill afford to take the risk of a failure"

MINISTERIAL ESTABLISHMENTS IN MUNSIFS' COURTS

The Hon'ble RAJA BAN BEHARI KAPUR, in the absence of the Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA, of Murshidabad, said —

It is said that the ministerial establishments attached to the Munsifs' Courts are undermanned and overworked

Would Government be pleased to take the matter into its kind consideration and grant the said establishments what relief, if any, they might appear to stand in need of?

The Hon'ble MR GORDON replied —

"The question of the work done in the offices of the Courts of the Munsifs of this Province and the establishment required for the purpose of carrying on such work with economy and expedition was investigated by a Special Commission, which submitted a report on the 31st March 1890 Upon receipt of this report, the Government issued a circular laying down the principles upon which the establishments were to be maintained Subsequently from time to time, at the instance of District Judges additional establishments were sanctioned About a year ago a further circular was addressed to District Judges empowering them to entertain additional temporary establishments on the conditions laid down in the orders of the 14th March, 1892 A similar question was asked in Council in March, 1904, and the reply then given was that the Lieutenant Governor must look to the District Judge to inform him of any need for additional establishment in any particular district The whole question is at present under the consideration of the Committee on the salaries of Ministerial Officers, and the Lieutenant Governor will be glad to grant relief in any case where it may appear that there is need of it"

EXPENDITURE BY DISTRICT BOARDS FOR DRINKING WATER

The Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA, of Murshidabad, asked —

Will the Government be pleased to state whether it considers the percentage of receipts expended by each District Board for the improvement of the supply of drinking water in each district as sufficient to meet the needs of each locality?

If not, will the Government be pleased to issue instructions insisting upon its repeated orders in this respect being strictly carried out in future?

The Hon'ble MR SHIRRES replied —

"No such orders as the Hon'ble Member suggests have been issued by Government Probably the reference is to the opinion expressed by Sir Charles Elliott, when reviewing the reports on the working of the District Boards in Bengal during the year 1891-92 that every District Board might properly set apart at least the sum of Rs 5,000 a year for the improvement of water supply

Information regarding the expenditure in 1904-1905 will be found in paragraph 30 of the Resolution on the working of District Boards, published in the Calcutta Gazette of 22nd November, 1905 At the commencement of the current year large grants for the purpose of improving the financial position of District Boards were placed at the disposal of Commissioners of Divisions, but information regarding the expenditure is not yet available"

ENCROACHMENTS UPON PASTURE LANDS

The Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA, of Murshidabad, asked —

Has the Government received any complaints regarding encroachments made upon pasture lands in Bengal and the diminution of facilities for grazing cattle in the villages?

If so, will the Government be pleased to state whether it considers legislation called for for preserving in each village a sufficiently large area for purposes of pasturage only?

The Hon'ble MR CARLYLE replied —

"Government is aware of the fact that encroachments have been and are being made upon pasture land, and that consequently less grazing is left

for cattle Government is not prepared at present to introduce legislation for the purpose of preserving in each village a sufficiently large area for purposes of pasturage only, as it would involve the acquisition of extensive tracts of land at a cost which would be prohibitive Government does all in its power when settlements are made to provide for the preservation of grazing lands in villages This, for example, was done in the case of the Orissa settlement A clause was inserted in the *kabuliyats* binding zamindars to preserve as grazing ground plots specified in a schedule annexed to their *kabuliyats* Under the *kabuliyats* also, they were required to take no rent or grazing charge and, if required by the Collector, to take action in the Courts to eject trespassers from these plots "

SANSKRIT *TOLS* IN BENGAL

The Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA, of Murshidabad, asked —

Is it a fact that there has been of late a considerable falling off in the number of Sanskrit *tols* in Bengal and of *tol* going pupils?

If so, will the Government be pleased to state—

(*i*) whether it has under consideration any scheme to improve the present state of things, and

(*ii*) whether the Government thinks it desirable that a Commission should be appointed to inquire into and report upon the matter?

The Hon'ble MR GORDON replied —

" There has been a falling off in the number of Sanskrit *tols* in Bengal, and in the number of pupils attending them, the decrease, however, is confined to unrecognized *tols* The number of recognized *tols*, *i e*, those which send up candidates for the Sanskrit *tol* examinations has increased, as has also the number of pupils attending them

In the year 1900 1901 there were 480 recognised *tols* and 7,375 pupils attending them In the year 1904 1905 there were 587 recognised *tols* and 9,148 pupils attending them There is thus an increase of 107 *tols* and 1,773 pupils attending them

In 1900 1901 there were 1,191 unrecognised *tols* and 10,617 pupils attending them In the year 1904 1905 there were 948 unrecognised *tols* with 8,268 pupils, showing a decrease of 243 *tols* and 2,349 pupils

The total falling off of 576 pupils, a percentage of 3 2, does not seem to the Government to indicate a state of things necessitating the appointment of a Special Commission "

THE BENGAL LAND REGISTRATION (AMENDMENT) BILL, 1905

The Hon'ble MR HARE moved that the Bill to amend the Land Registration Act, 1876, be referred to a Select Committee, consisting of the Hon'ble Mr Gupta, the Hon'ble Asif Kadr Saiyid Wasif Ali Mirza, of Murshidabad, the Hon'ble Raja Ban Behari Kapur, the Hon'ble Babu Jogendra Nath Mukherjee and the Mover

The Motion was put and agreed to

THE BENGAL COURT OF WARDS (AMENDMENT) BILL, 1905

The Hon'ble MR HARE also moved that the Bill to amend the Court of Wards Act, 1879, be referred to a Select Committee, consisting of the Hon'ble Mr Gupta the Hon'ble Raja Ban Behari Kapur the Hon'ble Mr Nimmo, the Hon'ble Mr Syed Shurfuddin and the Mover He said —

"I do not propose to make many remarks at present I would refer Hon'ble Members to the remarks which I made in explanation of the objects of this Bill when at last meeting I moved for leave to introduce it and to have it read I do not think it is necessary to repeat the remarks I then made

"The main object of the Bill is to strengthen the position of the Court of Wards and to make it more easy for the Court to carry out one of the objects for which the Court of Wards Act has been framed, *viz*, to rescue involved estates from ruin For this purpose the Bill takes powers which are given to the Court of Wards in the Central Provinces, Madras and the Punjab and which it is proposed to take in Bombay When the Court has had to raise money to redeem the debts of an estate, it will under the provisions of this Bill have power to retain the estate until the debts are repaid

"Following the provisions of the Court of Wards Act in the Central Provinces power is also taken to compel submission of all claims This is with a view to obtaining complete information before the Court decides finally whether it will undertake the management of an estate, and before it commits itself by borrowing money for the payment of debts Further provisions are made which were explained at the last meeting of this Council and upon which it is not necessary to enlarge"

The Hon'ble MR CHAUDHURI said —"Sir, with reference to the Bill to amend the Court of Wards Act, I have a few observations to make It may be in your recollection, Sir, that when this Bill was handed over to us at the last meeting of the Council and a motion was made by the Hon'ble Mr Hare not only for leave to introduce the Bill, but also that it be read in Council, we could hardly realize the full import of the changes and innovations that were proposed to be introduced into the general law by this Bill I therefore felt bound to remark that it would be much more convenient for us if such technical measures were circulated among the members some days before their introduction in Council—a remark with which your Honour agreed Since then I have had the opportunity of not only reading and considering the Bill myself, but of ascertaining the views of responsible people representing different interests who are likely to be affected by some of its chief provisions, and I apprehend some of these provisions will not meet with general approval in these provinces I refer to clauses 10 (A) and 10 (B) of the Bill which propose that on the Court of Wards assuming charge of any person or property, and the same being notified in the official Gazette, people will be required to submit their claims against the ward or his estate within six months of such notification, giving full particulars and providing all documents (including entries in the account books) in support of such claims All claims not so submitted will be considered discharged and documents not so produced as inadmissible in evidence against the Ward in any suit by the claimant, his representatives or assigns This no doubt favours the Ward greatly But it trenches against the ordinary law of limitation and evidence to the prejudice of the claimants and in favour of the Ward The classes who are most likely to be prejudicially affected by this paternal legislation on behalf of a favoured few are the toiling tradesmen, the innocent minors and the helpless members of a Hindu family who are entitled to a maintenance out of the estate The only recommendation for the introduction of this innovation amongst us would seem to be that the clauses referred to have been taken out of the Central Provinces Court of Wards Act But in the form of government, in the matter of laws and legislation, in point of business, social and commercial conditions, the Presidency of Bengal and the capital of India are very differently situated from the Central Provinces Legislation, therefore, on the primitive principle of the feudal times that the wards are entitled to special protection of the State would not, I am afraid, meet with general approbation in these provinces The tradespeople and other creditors will perhaps say that they are ordinarily too busy to keep a constant watch over the Court of Wards' notifications in the official Gazette It is much more convenient for them to have one general law of limitation for all their debtors than to have special laws for any special class of them The ignorant traders who never refer to an official Gazette will be still more prejudiced by the law As for minors very few of them have legally appointed guardians, and the prospect of forfeiting their claims, on their failure to give notice within six months, is much more serious The *Dayabhaga* law, which is peculiar to Bengal, has been very liberally construed with regard to maintenance It entitles poor widows, daughters and other

dependent women to a subsistence out of an estate If under the new law they fail to submit their claims within six months, they may be deprived of their food, raiment or residence. All this is not a very cheerful prospect for any of the classes concerned

"Under such circumstances, I would suggest that this Bill should, under rule 31 (*c*), at present, only be circulated for the opinion of the Hon'ble Judges of the High Court and the public bodies in this province, and that reference to a Select Committee be deferred till such opinions are received In case the Council should be of opinion that the Bill might, without any prejudice, be referred to day to a Select Committee, but its deliberations regarding the classes referred to be deferred till such opinions are received, I would suggest that the name of the Hon'ble Babu Bhupendra Nath Basu be added to the Committee My special reason for this is that the investigation of claims as contemplated by clause 10 (A) and clause 10 (B) is somewhat akin to search and similar work of which my hon'ble friend has a large experience, and I am sure that he will be able materially to assist the deliberations of the Committee and also represent the interests of the different sections of the community in connection with this Bill"

The Hon'ble BABU JOGENDRA NATH MUKHERJI said —"I beg leave to submit a few observations with respect to this Bill I have had a few words with my friend who has just addressed the Council, and I am, generally speaking, in agreement with what he has said It struck me as something very drastic to have all the creditors shut out if they cannot put in their claims within six months, and my reason for venturing to address the Council at this stage is that the Select Committee may be pleased to take these matters into their consideration when the time comes As it has been stated, the conditions of Calcutta are somewhat different from the conditions of other great towns in the different Provinces in which this Act has been in operation for some time, and it is desirable that criticisms should be obtained from the different Provinces in which this Bill has been in operation, especially with reference to the effect the law has had upon the different classes of creditors as contemplated by the Bill

"It seems to me that when an estate is in debt and under the management of the Court of Wards, the debts are not always of a very insignificant character There are big bonds worth lakhs of rupees, and those bonds are generally registered documents, and in respect of those documents it will always be very easy for the Court of Wards to obtain information It is only with reference to very small debts and small creditors that practical difficulty is likely to arise, and those are the very creditors whom it is desirable that the law should protect Those are the creditors who do not read the Gazette and who have not the necessary information in order that they may cope with the situation which the present Bill will introduce It is therefore desirable that the Select Committee should take these different matters into their consideration, and, as has been stated by my hon'ble friend Mr Chaudhuri, that the opinion of the different Bodies and of the Honourable Judges of the High Court should be obtained and placed before the Select Committee for consideration I also agree with my hon'ble friend that the name of the Hon'ble Babu Bhupendra Nath Basu should be added to the Select Committee"

The Hon'ble MR GUPTA said —"I simply wish to say at this stage, as I have been put on the Select Committee, that there is considerable force in the objections taken to this clause of the Bill and that without committing myself to any opinion at present, I may assure my hon'ble friend that this matter will receive the careful consideration of the Select Committee As the clause stands, it amounts to a confiscation of all debts which are not notified to the Court within six months after the publication in the local Gazette The same desired effect of bringing all claims to the notice of the Court might be brought about by some provision of the law not quite so drastic as that embodied in this section, as for instance by providing in this section that all debts which are not notified to the Court of Wards within six months will cease to carry interest from a certain date, that is to say, if a man has a debt and if he does not come in when the Court of Wards wants him to come in

and he thus allows interest to accumulate, he should not be allowed to realize that interest That would probably be a penal provision sufficient to secure the purpose in view, namely, giving notice to the Court as early as possible of all outstanding debts due by the estate and giving the Court an opportunity of satisfying those debts as early as possible It is impossible for us just now to say how this section may be modified, but on my part I quite appreciate the force of the objections that have been raised, and probably it would not be necessary to secure the end in view to adopt such a drastic measure as the confiscation of all debts which are not notified within six months when the general law of limitation gives them a much longer time to sue for those debts

The Hon'ble MR HARE said —"I take up first the objection of the Hon'ble Mr Chaudhuri that trades people are too busy to study Gazettes and to take notice of any notification that may be published in regard to those debts I beg to point out that it would certainly be the case that the newspapers would be sure to bring to notice the fact that any estate was taken up, and that such a notification had been issued and that claims must therefore be sent in This would be sure to be communicated by the newspapers who, as I have said, cater very well indeed for the information of the public But I go beyond that It is quite true, as the Hon'ble Babu Jogendra Nath Mukherjee has said, that the larger debts which are secured by bonds are registered, and therefore we can, and we do of course, ascertain all that can be known about them, but it is the unsecured debts that have to be ascertained Those debts are not always very small If they are very small, they may be treated as unimportant in the scheme of reclamation, but very often they are very large indeed In the aggregate in a big estate which has had large transactions they are very large indeed, and if they come upon us unexpectedly, they may just make the difference between our being able to carry out the scheme or not If we do not know about those, we do not provide for them We endeavour to do the best we can for all parties including the creditors But for our interference the creditors are left in the same position as they were, and the whole scheme of redemption of the estate and payment of debts has to be given up We shall do a great deal to secure payment to the creditors Every one knows that when an estate is heavily encumbered, it is quite impossible for the unsecured creditors to recover anything at all, or very little, because directly they move the secured creditor, whose mortgage claim takes precedence comes in, the estate is sold subject to the mortgage which sometimes does not bring in enough to pay the secured creditor, and when there is a small balance left the unsecured creditors have to scramble for it If we take up an estate which has debts in excess of its assets, we must consult the creditors and must know who they are The creditors have to come in and agree to make remissions if we have not got money enough to pay them in full I can assure Honourable Members that in every case which we have taken up, creditors have gladly assisted us, and have agreed to forego a portion of their claim, as it is to their interest to take as much as we can give them in preference to the other course of scrambling and getting nothing Thus shewing that they as well as the proprietors appreciate our assistance, I think it is not unreasonable to expect that where creditors have large claims that they should, when they give credit to these gentlemen who run into debt in this way, ascertain something about them, and in their own interests keep a watch upon what they are doing The proprietors cannot come into the Court secretly It must be done publicly, and it will be perfectly well known what they are doing if they are being watched at all I think creditors who are seriously interested in their claims can perfectly well secure and protect themselves

"I have one remark to make with reference to what the Hon'ble Mr Gupta has said He said he thinks this is rather too drastic, and that possibly it will be sufficient to provide that interest shall not carry at all if they do not give us intimation I am afraid the Hon'ble Mr Gupta has not read the whole of clause 10A, for if he had he would have found that in the proviso we distinctly provide for that very object We there say that there may be cases in which it is not possible for a creditor to give us intimation, and in

that case if the Court be satisfied that the claimant was unable to comply with the provisions of sub section (1), that is, to come in within six months, it may receive his claim at any time after the date of the expiry of the period aforesaid, but any claim so received shall cease to carry interest from the date of the expiry of the period aforesaid. The reason of that is that it is unsafe to take an estate unless we know all the debts and unless we have the power to say to the creditor, 'You have had an opportunity of coming in, and you really did or ought to have known that you must come in,' he may not come in at all and the whole scheme may be wrecked If we cut off the interest it enables us to carry on and gradually in the course of time to pay off If the interest continues and if we have not got the money to pay that interest, then it is only a question of time and the estate must be ruined I do not think it is necessary to fully discuss this now, but I just meet these objections with such remarks as have occurred to me

"As regards the claims of minors which the Hon'ble Mr Chaudhuri has put forward, I do not know whether he puts them as minor creditors, that is to say, minors interested in claims against an estate or as members of the family As minor creditors they have people acting for them, I suppose We cannot possibly legislate to provide that people shall be looked after who are not under our care. I do not see what we can possibly do for them They have probably got guardians, who must be trusted to take an interest in their affairs

"As regards the claims of widows to maintenance, those are not claims which we are considering at all Of course when a scheme is prepared we allow so much for debts, so much for interest which must be paid, so much for re payment of interest, so much for management and so much for the maintenance of the family We must provide for that, it cannot escape us, and if we are not going to provide for the maintenance of the family, we may as well leave the estate alone It is for the maintenance of the family and to save the estate as a family property that we are acting If we cannot give anything to the families it is a case which is hopeless Those who are entitled to maintenance are bound to be considered and their claims are the first to be considered

"I would point out that it is not for the Select Committee to decide anything except that the principles of this measure are sound and the details are to be considered On a future occasion after the criticisms have come in and have been fully considered by the Select Committee and by the Hon'ble Members of this Council they will be able to give us an opinion upon this Bill There is no intention to rush this matter The Select Committee is now formed, and the criticisms, as they come in, will go to them and will be fully considered The Select Committee will not sit until a reasonable time has been allowed for the criticisms to arrive

"As regards adding the Hon'ble Babu Bhupendra Nath Basu to the Select Committee, I do not object I will be very glad of his assistance if he can help us in the matter We thought the names that have been put before the Council as the gentlemen who were most likely to give us material assistance would be sufficient, but if you wish to put in another Member, we will make no objection"

The Motion, with the addition of the name of the Hon'ble Babu Bhupendra Nath Basu to the Select Committee, was then put and agreed to

THE CALCUTTA AND SUBURBAN POLICE (SUPERANNUATION FUND) BILL, 1905

The Hon'ble MR. CARLYLE moved that the Bill to abolish the Calcutta Police Superannuation Fund be taken into consideration. He said —"I will not detain the Council long over this Bill, and I do not think anybody will oppose the abolishing of the fund. At present all members of the Calcutta and Suburban Police drawing Rs. 20 and under have to pay half an anna in the rupee towards their pension or gratuities The question of abolishing the

fund was considered in 1900, but it was decided not to go on with it for financial reasons Our financial position now is such as to enable us to dispense with contributions from the Police, and it is desired that the Calcutta Police should be put on the same footing as the Provincial force in this matter, and that no deduction should be made from their pay on account of pension or gratuities In the case of some of the officers in the Police force they get more under the present system than they would from Government We will provide for such cases by executive order, and care will be taken that the officers will not be injured by the fund being abolished"

The Hon'ble BABU JOGENDRA NATH MUKHERJEE said —"I beg leave to introduce a very short verbal alteration in the Bill which is a matter of description only, and I do not think there can be any doubt about the matter Section 3 of the Bill provides that 'all sums standing to the credit of the Calcutta Police Superannuation Fund, etc' This Fund by Bengal Act I of 1890 was not described as the Calcutta Police Superannuation Fund It was simply described as the Police Superannuation Funds constituted respectively under section 16 of Bengal Act IV of 1866 and section 10 of Bengal Act II of 1866, so that the two Acts (II of 1866 which relates to the Suburban Police and IV of 1866 which relates to the Calcutta Police) were consolidated by this one Act (I of 1890) The slight verbal alteration that I beg to suggest is that in the first line of clause 3, the words 'and Suburban' be inserted before the words 'Police Superannuation Fund' so that the section will run as follows 'All sums standing to the credit of the Calcutta and Suburban Police Superannuation Fund, etc' This insertion will also necessitate the insertion of the words 'and Suburban' in the preamble to, and in clause 1 of, the Bill"

The Hon'ble MR CARLYLE said —"I have no objection to make to the alteration suggested by the Hon'ble Member"

The Motion was put and agreed to

The Hon'ble MR CARLYLE moved that the Bill be passed

The Motion was put and agreed to

The Council was then adjourned to a date to be notified hereafter

Flat, Nanshan, and West York islands—Positions and particulars given

No 460 (second publication)—The following Notice to Mariners (No 1105 of 1905) issued by the British Admiralty is republished, in continuation of this office No 458, dated the 25th November 1905

Further information dated 24th August 1905, has been received through the Board of Trade that Mr W D Prideaux commanding U S naval collier *Nanshan*, sent from Manila to relieve the crew of the British barque *West York* wrecked on a reef south eastward from North Danger reef in the China sea makes the following report respecting some islands and dangers between North Danger reef and Palawan —

(*a*) Flat island was found to be a flat low sandy island about 200 yards across A reef extends in an easterly direction from it for a distance of 2 to 3 miles, and several discoloured patches were observed to the N N Eastward The position of the island was ascertained to be lat 10° 48 15″ N long 115° 50 30″ E or about 16 miles to the south eastward of the position shown on the Charts The position formerly given lat 11° 3 N, long 115° 42 E, was passed over without any sign of land being observed

(*b*) Nanshan island An island (now named Nanshan) covered with small trees, and about 600 yards across, was observed to be situated about 6 miles S 12° W from Flat island, in approximately lat 10° 42′ 30″ N, long 115° 49′ 30″ E

(*c*) West York island This island is about one mile long and half a mile broad covered with grass and trees some of which are cocoanut palms, it is fringed with a reef which extends from it a quarter of a mile on the eastern side to fully 2 miles on the northern side, on the latter reef the ship *West York* was wrecked An anchorage was found in 14 fathoms, coral with the north point of the island bearing S 25 W, distant 2½ miles Signs of former Chinese habitation were found, and it is apparently visited every year by fishermen from Hainau for the purpose of collecting Trapang, &c The position of the island was ascertained to be lat 11° 5 45″ N, long 115° 1 30″ E

Shanghai—Intended alteration in system of weather signals

No 443 (third publication) —The British Admiralty has given notice (No 1059 of 1905) that, on the 1st January 1906, the flags of the International Code will be substituted for the Marryat Code in making the undermentioned weather signals at the Storm-signal station, Shanghai —

I —The 9 30 A M signal indicating the direction and force of the wind at Gutzlaff at 9 A M will be made as follows —

The direction by the flags N S, E, W, and V (variable) of the International Code, and the force by the numeral signals 0 to 11

Letter U flag signifies calm, and a blue pennant that fog prevails

This signal is lowered at 10 A M In case of any delay it will be hoisted from 11 30 to 11 50 A M

At 3 30 P M a similar signal shows the direction and force of the wind at Gutzlaff at 3 P M In case of delay it will be hoisted from 4 15 to 4-30 P M

II —The signals indicating the probable direction and force of the wind on the coast, and at Shanghai within the next 24 hours will be made as follows —

SPECIAL FLAGS

1 2 3 4 5

Flag No 1 hoisted over any of the flags N S, W, L, U, or V of the International Code indicates the probable wind along the coast south of the 30th parallel

Flag No 2 hoisted over any of the flags N, S, W L, U or V indicates the probable wind along the coast north of the 30th parallel

Flag No 3 indicates that fair weather is probable at Shanghai

Flag No 4 indicates that unsettled and threatening weather is probable at Shanghai

Flag No 5 indicates that rainy weather is probable at Shanghai

III —The 4 P M signal indicating height of the standard barometer at Zi ka wei Observatory, will be made in the same manner as at present except that numeral signals of the International Code will be used in the place of those of Marryat's Code

NOTE —Signals I and III are repeated at the storm warning semaphore of the Imperial Maritime Customs near the inner bar and from the Old Lighthouse signal flagstaff near the Wusung light house

Intended alteration in system of Typhoon and Storm signals

No 444 (third publication) —The British Admiralty has given notice (No 1060 of 1905) that, on the 1st January 1906, the undermentioned system of Typhoon and Storm warning signals will be substituted for that now in use at the semaphores of the Imperial Maritime Customs at Canton, Amoy, Kuchau (Pagoda anchorage), Gutzlaff island, Wusung, Shanghai (Storm signal station), Chifu Chinkiang, Taku and Newchwang —

The signals are made by means of shapes used as symbols having numbers corresponding to them as follows —

1 2 3 4 5 6

These shapes are hoisted at the yard arms of the signal mast and have the following general characteristics —

Typhoon and Continental depressions	3 shapes at one yard-arm showing the position of the centre 2 shapes at the other yard arm showing the region threatened
Gale signals	2 shapes at one yard arm showing the general direction of the wind. 1 shape at the other yard arm showing the region threatened

The total fall from 1st January to 2nd December 1905	69 76
The average fall of the corresponding period for 24 years Surveyor General's Office	65 16

The mean pressure, temperature, etc are deduced from eye observations

The maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground Rainfall reported on any day is for 24 hours preceding 8 A M of that day
